The Town is considering an amendment to the zoning ordinance to allow Accessory Dwelling Units as accessory use to a single-family residential dwelling. The Town wants to share information with the community about Accessory Dwelling Units and get resident feedback on key issue areas.

The Town Council Zoning & Regulatory Committee introduced the topic of Accessory Dwelling Units to discuss the potential for this housing option to increase the availability of year-round rental units; adapt single-family residential properties so they are supportive of residents at a variety of stages in their life cycle; and to encourage economic and efficient use of the Town's housing stock while maintaining the appearance and character of neighborhoods and remaining within our wastewater capacity limitations. A draft of the ordinance discussed by the Zoning & Regulatory Committee is available on their website (www.townofbarnstable.us/boardscommittees).
