FY25 Grants

Barabra has called many of the “losing” grantees and has connected with very few (people don’t answer their phones!) She will attempt to reach the rest. The Council wants to get these people signed up for a grant writing workshop AND have them fill out the survey of priorities once it’s finished.

We reviewed the Final Report for FY24. Margeaux wants to have us examine the final reports from each grantee to see that all requirements were adhered to. (For a later meeting.)

All members need to read over and make notes concerning the survey. Rachel has already submitted suggestions via email.

Chair will assign liaisons for every grant given.

Next meeting assemble a list of outreach possibilities for survey distribution.
