Zoning District: Residence C-1 and B, GP Overlay

Proposal:

Installation of a grant funded, grid-connected renewable energy project consisting of four (4) 131 ft. monopoles with three-bladed wind generators. Total height of structures including blades - approx. 179 feet. A photovoltaic (PV) component consisting of up to a 350 kw ground-mounted PV solar system is also proposed on site.

Status:

Continued. Administrative approval anticipated.
