

Location Map

Project Objectives

“The intent of the project is to improve safety and reduce congestion for all users at the intersection of Iyannough Road (Route 28) and Yarmouth Road.”

Project Scope

This project consists of intersection reconstruction and traffic signal upgrades:

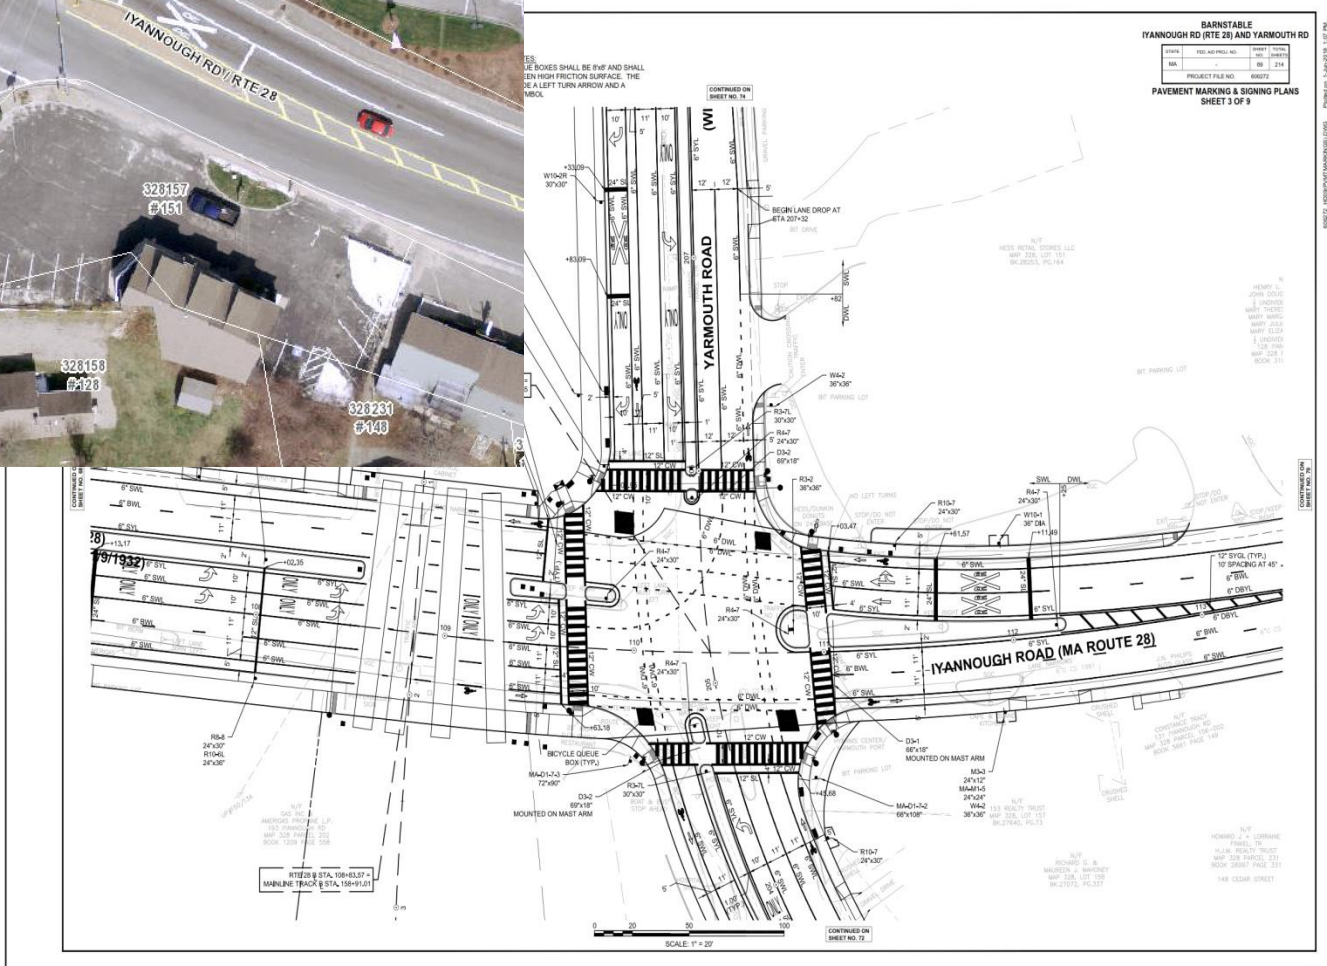

- Additional lanes
- Bike lanes
- New traffic signal system
- New rails, gates and signals for the rail crossing
- A shared use path on the west side of Yarmouth Road crossing at Route 28, then connecting to Engine House Road at the entrance to the intermodal center
- New sidewalks on the other quadrants
- Drainage and utility improvements
- New pavement markings and signage
- Limited landscaping and decorative lighting

Side of Intersection	Existing Lanes	Proposed Lanes
North	1 NB, 2 SB	2 NB, 3 SB
South	2ish NB, 1 SB	3 NB, 1 SB
East	1 EB, 2 WB	2 EB, 2 WB
West	3 EB, 2ish WB	4 EB, 2 WB
