Director of Public Health

October 12, 2021

Update:

- Due to low Microcystin concentrations , Long Pond Marstons Mills is no longer at the 'Warning' level. Also Parker Pond and Schoolhouse Pond are no longer at 'Pet Advisory' levels. All warning and pet advisory signs were removed from these ponds today.
- The only Barnstable pond that remains posted due to its high tier classification from APCC- is Lovell's Pond in Marstons Mills. This pond was re-sampled today and we will get the laboratory results tomorrow.

Cyanobacteria Postings:

Warning Level

Lovell's Pond, Marstons Mills
