Letter of Transmittal

December 30, 2020

To the Honorable Members of the Town Council and Citizens of the Town of Barnstable:

State law requires the Town of Barnstable to publish at the close of each year a complete set of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) that are audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the Town of Barnstable, Massachusetts, for the year ending June 30, 2020, for your review. This report was prepared by the Town of Barnstable's Finance Department.

This report consists of management's representations concerning the finances of the Town of Barnstable. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Town of Barnstable has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town of Barnstable's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town of Barnstable's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Town of Barnstable's financial statements have been audited by Powers & Sullivan, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Barnstable for the year ended June 30, 2020, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion on the Town of Barnstable's financial statements for the year ended June 30, 2020, and that they are fairly presented in conformity with GAAP. An unmodified opinion or a "clean" opinion is the highest one that can be received. It essentially means there are no reservations concerning the financial statements and that no deficiencies in the financial statements were found. The independent auditor's report is presented on page 19 of this report.

The independent audit of the financial statements of the Town of Barnstable was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Town of Barnstable's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town of Barnstable's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The Town of Barnstable was incorporated in 1639 and is located in the center of Cape Cod. The land area covers over 62 square miles including 100 miles of shoreline and 55 freshwater ponds. The Town is composed of the seven villages of Barnstable, Centerville, Cotuit, Hyannis, Marstons Mills, Osterville, and West Barnstable with a year-round population of close to 45,000 that nearly triples during the summer months. The Town spans the width of Cape Cod from the north to south and is bordered by the Towns of Mashpee and Sandwich to the west and Yarmouth to the east. The Town serves as the seat of county government and the Village of Hyannis serves as the seat of Town government.

Municipal Services

The Town provides general governmental services within its boundaries including public education in grades kindergarten through twelve, police protection, collection and treatment of sewage predominantly in the Village of Hyannis, public works, streets, parks and recreation, public beaches and a municipal airport. The Village of Hyannis' water supply is provided by the Town of Barnstable. The other villages' public water supply is provided by special districts (The Barnstable Fire District, the Cotuit Fire District, and the Centerville-Osterville-Marstons Mills Fire District). The districts are special purpose units of government and collectively, with the Town, service 96% of the residents while the remainder makes use of private on-site wells. Fire protection is provided by the above named districts and the West Barnstable Fire District and the Hyannis Fire District. The water and fire districts are special governmental units and are not part of the municipal structure. However, the Town does serve as collecting agent for taxes and transfers the funds directly to the districts on a weekly basis. Their financial activity is not part of these financial statements.

Seven independent libraries provide library services for Town residents. The libraries include: Centerville Public Library, Cotuit Library, Hyannis Public Library, Marstons Mills Public Library, Osterville Free Library, Sturgis Library, and Whelden Memorial Library. The Town has traditionally provided funding to each library in the form of grants that average 2/3 of the libraries' total operating funds. The Town has no administrative or managerial authority over the libraries; rather, they are governed by independent boards of trustees. A Town Library Committee, appointed by the Town Council from members of each library's board of trustees, provides a coordinated effort of looking at Town-wide library issues. The libraries are reported as component units as part of these financial statements.

The Cape Cod Regional Technical High School District provides education in grades nine through twelve. Approximately 169 Barnstable students attended this school in 2020. The Sturgis Charter Public School and Cape Cod Lighthouse Charter School are Commonwealth Charter Schools and provide an alternative choice for public education for grades 9 to 12. Approximately 266 Barnstable students attended these schools in 2020. The Barnstable Public Schools also participate in the school choice program. The school choice program allows parents to send their children to schools in communities other than the City or Town in which they reside. Tuition is paid by the sending district to the receiving district. Districts may elect not to enroll school choice students if no space is available. Under this program the Town sent 241 students in 2020 to other districts while receiving 109.

The Cape Cod Regional Transit Authority provides limited bus service within the Town which receives an annual assessment from the state for this service. The Barnstable Housing Authority provides housing for eligible low-income families and elderly and handicapped persons. These entities are not considered component units. The principal services provided by Barnstable County are space for courts, regional planning and development through the Cape Cod Commission, and a registry of deeds. The county is not a component unit.

Governing Bodies and Officers

The Town is governed by the council-manager form of government with an elected thirteen member Town Council and a council-appointed Town Manager. Council terms are staggered four-year terms from thirteen precincts on a nonpartisan basis. Subject to the legislative decisions made by the Town Council, administrative authority is vested in the Town Manager. The Town Manager supervises and directs the administration of all municipal departments except for the School Department and the Barnstable Municipal Airport.

The School Department is governed by the elected School Committee consisting of five persons, and a Superintendent appointed by the School Committee.

A seven-member Airport Commission appointed by the Town Council with staggered three-year terms governs Barnstable's Municipal Airport. An Airport Manager, appointed by the Airport Commission, is responsible for administration and day-to-day operations.

Local taxes are assessed by a council appointed Board of Assessors who serve a three-year staggered term.

Organization

The Town is organized in accordance with its Home Rule Charter, which was adopted in the spring of 1989. The charter outlines provisions for incorporation, the legislative branch, elected Town offices, the Town Manager, administrative organization, financial procedures, nominations and elections and citizen relief mechanisms.

For 2020, the Town was administratively organized through an administrative code ordinance into eight departments reporting to the Town Manager and one elected officer department. Administrative departments include Administrative Services and Planning & Development. The Administrative Services Department is comprised of four sub-departments including Legal, Human Resources, Information Technology and Finance. The elective office of the Town Clerk liaisons with the Finance Department. The formerly elected Town Collector retired in fiscal year 2019 and this operation was consolidated with the Town Treasurer's office for fiscal year 2020. The Finance Department incorporates consolidated financial management of budgeting, accounting, assessing, treasury, tax collections, and procurement for all departments including the School Department. Operational departments include the Department of Public Works, the Department of Community Services, the Department of Inspectional Services, Licensing, the Department of Marine & Environmental Services and the Police Department.

The administrative code ordinance describes the responsibilities and relationships of all elective officers, all multiple member boards, and all administrative agencies. It further defines legislative policy on financial management, communications, ethics, fleet services, insurance, investment, information systems, personnel, procurement, trust fund management, volunteer services and property management. Administrative procedures are promulgated by the Town Manager to implement the legislative policy in each of these areas.

Financial and Management Systems

The Town annually prepares and updates a five-year financial forecast and five-year capital improvement plan. The Town annually prepares and presents an annual operating budget. These documents are prepared by the Finance Department under the direction of the Town Manager's Office and submitted to the Town Council for review or adoption. The Town Council annually establishes financial policies that guide the preparation of the capital and operating budget plan.

The five-year forecast, submitted to the Town Council each year, is a comprehensive review of economic trends on a local, regional and national basis; which projects and analyzes major municipal fund projections based upon service program assumptions. Based upon these projections and analyses, the forecast establishes a focal point

each year for the Town Council to establish a series of revenue and expenditure policies which guide in the formation of the capital and operating budget.

The five-year capital improvement plan, submitted in the spring of each year, comprehensively identifies municipal infrastructure and improvement needs by detailing on a project basis, project description, cost, potential source(s) of funding, priority need, impact upon the operating budget and ongoing capital maintenance costs. The plan is funded annually by the Town Council adopting a funding strategy for the first year of each plan. The annual update allows decision makers the opportunity to regularly analyze and decide upon the priorities for project funding.

The annual operating budget submitted in the spring of each year, follows a programmatic format which details the source and use of funds for all programs, program descriptions, departmental missions, goals, accomplishments, performance measures, workload indicators and financial management criteria for each budget cycle. The budget maintains consistency with the Town Council's Strategic Plan, financial management standards and policies. The budget funding sources include the general fund, comprised of revenues from the property tax, auto, boat, hotel excise tax, user fee receipts, grants in aid, trust income and miscellaneous program income; and nine enterprise funds consisting of a municipal airport, two golf courses, the water pollution control facility, the solid waste facility, water supply, four Town marinas, Sandy Neck Park, the Hyannis Youth and Community Center (HYCC) and public, education and government access television. Most enterprise funds are self-supporting through user-based charges. Three receive a general fund subsidy including the golf course, marinas and HYCC.

Principal Executive Officers

<u>Office</u>	<u>Name</u>	<u>Term</u>	<u>Term Exp.</u>
Town Manager	Mark S. Ells	Appointed	Jun. 2026
Superintendent of Schools	Meg Mayo-Brown	Appointed	Jun. 2022

Director of Human Resources	William E. Cole	Appointed	Indefinite
Director of Information Technology	Daniel J. Wood	Appointed	Indefinite
Director of Planning & Development	Elizabeth S. Jenkins	Appointed	Indefinite
Town Clerk	Ann Quirk	Elected/4 yrs.	Nov. 2021

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Barnstable operates.

Local economy. While tourism will always remain an important component of the Town's economy, improved transportation networks, a heightened popularity among retirees, and the Town's own growing service economy are helping to diversify the economy from its former heavy reliance on the summer tourism trade. Even the nature of tourism has changed. Expansion of the summer season is evident, including the "shoulder seasons" in the spring and the fall. Contributing to the extension of the season is the large increase in the conversion of former

summer homes to year-round homes, as well as the construction of many expensive second homes. Over the years, Barnstable has evolved from a seasonal to a more year-round community, with a current year-round population of approximately 45,000. Approximately one-half of the homes are now occupied by year-round residents, compared with about one-third 50 years ago.

The Town also is a major transportation hub for the Cape Cod region and the islands of Nantucket and Martha's Vineyard. Over 60,000 passengers per year pass through the Barnstable Municipal Airport. Jet Blue has operated a direct flight from JFK in New York on a daily basis during the summer season. Employment at the airport exceeds 1,000 people. The Cape Cod Regional Transportation Authority's main terminal is located in the Village of Hyannis and the Steamship Authority and Hyline Cruises provide ferry service to Nantucket and Martha's Vineyard. Over one million people pass through these ports every year. All this traffic creates the opportunity for the Town to sustain a healthy retail and service driven economy.

The healthcare industry continues to grow in Town with Cape Cod Healthcare (CCHC), a leading provider of healthcare services for residents and visitors of Cape Cod. With more than 450 physicians, 5,300 employees and 1,100 volunteers, CCHC has two acute care hospitals; one located in the Village of Hyannis. Major service areas include cardiovascular services, inpatient and outpatient surgery in 14 operating rooms including two cardiac surgery rooms, cancer services in medical oncology and radiation therapy and imaging services. The 38-acre Hyannis waterfront campus includes the 20-bed Cape Psych Center with inpatient and outpatient mental health and behavioral health services, 14 medical office buildings, the Breast Care Center for digital mammography and diagnostic testing, the Infectious Disease Clinical Services, and a hospital-supported community health center. A new bed tower project is being proposed for their Hyannis campus. The Town's older population is also attracting a health care support system from independent and assisted living residences to facilities specializing in Alzheimer's and other dementia, as well as palliative care.

Standard & Poor's Rating Services rates the Town's economy as "very strong" in its February 2020 published ratings summary. The Town has a projected per capita effective buying income of 117% of the national level and per capita market value of \$340,294. Overall, market value has grown by 5.8% over the past year to \$15.1 billion in fiscal 2020. The property tax base is primarily residential, with 89% of assessed value classified as such.

Tax base. Barnstable's tax base is still among the largest in the Commonwealth. Total assessed valuation for the Town is estimated to increase to \$15.9 billion in 2021 reflecting a 5% increase from the 2020 value of \$15.1 billion. Property values continue to recover from the declines experienced after the 2008 recession. The Town's current property value is over \$2.6 billion more than the 2010 value of \$13.3 billion. The tax base includes a substantial \$1.6 billion commercial base due to the Town's position as one of the economic centers of southeastern Massachusetts. New building growth activity continues to perform better having grown from \$93 million in 2014 to \$120 million in 2020. New building growth has averaged \$143 million for the past three years. The tax levy for 2020 was \$128.4 million which is \$248.7 million less than the levy ceiling. The excess capacity between the tax levy and levy ceiling can only be accessed by a voter approved override. The tax rates for 2020 were \$9.37 per thousand dollars of valuation on residential property and \$8.50 per thousand dollars of value on commercial, industrial and personal property (CIP) classes. The residential rate was higher than the CIP rate as a result of the Town Council adopting a 20% residential exemption. This effectively removed \$1.2 billion of property value from the residential class driving the tax rate upwards for this class of property as the residential tax levy remains the same.

Long-term financial planning. The Town of Barnstable's capital program has identified approximately \$387 million in needed capital improvements over the five several years. This includes projects associated with the implementation of the Town's Comprehensive Wastewater Management Plan (CWMP) which total \$105 million. Projects identified for the Town's nine enterprise funds total \$112 million and \$170 million are general fund improvements. \$40 million is for airport improvements with a majority of the capital program anticipated to be financed with federal and state funding. \$60 million is associated with the water quality improvements including sewer plant facility upgrades, sewer line expansions, water line replacements and other water system

improvements. In addition, there is approximately \$146 million for road, bridge, parking lot, sidewalk improvements, and Town facility improvements, and \$24 million for school facilities.

The implementation of the Town's Comprehensive Wastewater Management plan is projected to have significant financial impacts on the community in the coming years. Studies have quantified the Town's total maximum daily load (TMDL) of pollutants into our estuaries and the amounts that should be removed to comply with Federal Clean Water regulations. Removal of the excess pollutants will require sewer expansions that are currently estimated to cost approximately \$1 billion over the next 30 years. Alternative treatment technologies are also continuously evaluated as opposed to traditional "big-pipe" solutions which could reduce the cost estimate for this program.

In November of 2019, the Town Council adopted a Comprehensive Wastewater Management Plan (CWMP). Pursuant to section 208 of the Federal Clean Water Act, in 2015, Cape Cod Commission submitted the updated Cape Cod Water Quality Management Plan (208 Plan) to the US Environmental Protection Agency. In conjunction with development of the 208 Plan, the Commonwealth of Massachusetts requires Towns to develop CWMPs intended to, in part, to protect and restore water quality to meet applicable water quality standards in coastal water resources. Since 2015, the Town has been preparing its updated CWMP. The plan has been filed with the applicable regulatory agencies for formal review and the Town is waiting for approval.

The plan includes a component for financing the CWMP, which, as previously mentioned, is estimated to be in excess of \$1 billion. Several actions over the past few years have taken place to create multiple funding sources dedicated for this plan which include 100% of local meals taxes and 33% of local rooms taxes. These resources generate approximately \$2.6 million annually and are accounted for in a Construction & Maintenance Fund which is part of the Town's Governmental Fund structure. The fund has a balance of just under \$20 million as of June 30, 2020.

Beginning on July 1, 2019 the local rooms tax was expanded to apply to short-term rentals and 100% of this revenue source is dedicated to the comprehensive management of water and wastewater. \$534,000 was generated in the first year from this new revenue source and \$987,000 was generated in the first quarter of FY 2021. The state also authorized the creation of the Cape Cod & Islands Water Protection Fund which is funded by a 2.75% tax on all types of lodging establishments beginning on stays that originate on July 1, 2019 and thereafter. Cape-wide this fund is expected to generate in excess of \$15 million per year. Distributions from the fund are determined by a Governing Board made up of a representative from each town on Cape Cod and will be in the form of a principal subsidy on debt service.

The Town is actively working on several policy decisions to assist with the financing of this program in the coming year including the application and determination of sewer assessments, system development charges and any general fund contribution that may be dedicated towards this effort. The financial plan submitted to the regulators illustrates the multiple assumptions used and how this plan can be financed.

On the operations side, the most significant factors affecting long-term financial planning included the level of new building growth, state aid levels, excise taxes, personnel costs including wages, salaries and benefits, utility and fuel costs, the aging of the Town's population and the change in school enrollments.

Revenue from new building growth has improved over the past couple of years but is still well below the \$190 - \$200 million level the Town was experiencing back in FY 2003 – FY 2006. A decline in developable lots and recent trends in the housing and financial markets have established a new norm for the Town in the form of lower projections over the next several years. The Town will continue to focus efforts on the redevelopment of existing lots in an attempt to create more new property tax growth beyond the development of vacant parcels.

State aid increased 13.9% in FY 2020 and is projected to increase 8.6% in FY 2021 when the budget was developed. The single largest form of aid is Chapter 70 Aid for education. The state implemented a major change

in the Chapter 70 funding formula in FY 2020 that resulted in a \$1.6 million increase for the Town. The new formula significantly increases the foundation budget recognizing the additional costs associated with English Language Learners, Economically Disadvantaged students and the rising cost of health care. In Massachusetts, the definition of an adequate spending level for a school district is called its “foundation budget.” It is a statistical measure that was developed by a group of superintendents and an economist in the early 1990s. They developed a “model school budget” which quantified “for the average school district what constitutes an adequate, but not excessive, level of funding. The goal of the Chapter 70 formula is to ensure that every district has sufficient resources to meet its foundation budget spending level, through an equitable combination of local property taxes and state aid.

Health insurance costs for the Town has leveled off for the past couple of years due to the introduction of high deductible plans and minimal rate increases. This trend is projected to continue in the next year but in future years it is expected to outpace inflation. Additionally, communities now have the power to implement plan design changes without following the traditional collective bargaining process; however, any change in contribution rates are still subject to that process. Communities can also elect to join the state insurance program under the Group Insurance Commission as an alternative, however, plan selection has been significantly restricted. In addition, all eligible retirees are required to join a Medicare plan which has reduced costs to Cities and Towns as well.

The Town currently participates in a joint purchase group (Cape Cod Municipal Health Group) for its health insurance program. Under the new law, the joint purchase group can make plan design changes so that co-pays and deductibles can mirror those that are offered by the plans under the Group Insurance Commission. Plan design changes can mitigate premium rate increases. Rate increases for FY 2019 averaged 6% and rates were held level for FY 2020 and FY 2021. The health group also introduced a high deductible Health Savings Account option effective for FY 2018 in an attempt to allow member entities to control cost increases. Finally, the Affordable Care Act could significantly impact this area of the budget in the near future. It is anticipated that most of the Cape Cod Municipal Health Group’s plans will become subject to the “Cadillac Tax” under the Affordable Care Act. This tax becomes effective January 1, 2022 and the latest discussions at the federal level appear that this tax may never be implemented.

The Town contributes 50% towards active and retired employees’ health insurance premiums. This is the minimum amount it can contribute by state law and no increase in the contribution rate is expected. The Town’s total health insurance expense on a pay-as-you-go basis for 2020 was \$12.6 million. This includes active and retired employees including retired teachers. Retired teachers join the Group Insurance Commission (GIC) upon retirement and the Town receives an assessment from the GIC every year. The assessment for 2020 was \$2.8 million. Additionally, a Government Accounting Standards Board (GASB) pronouncement was issued that requires the Town to perform an actuarial calculation of its unfunded health insurance liability for all active and retired employees. This liability is disclosed in these financial statements on pages 102 to 107. The Town created a trust fund in 2011 to begin accumulating assets to fund this liability. This fund has a balance of approximately \$5.8 million as of June 30, 2020. A contribution to this fund of \$628,000 was paid in 2020. A plan to increase the base contribution by \$50,000 per year has been incorporated into the Town’s long-term financial planning.

In the areas of utilities and fuel the Town continues to implement and explore alternative options. Fields of photovoltaic panels were installed at the Solid Waste Transfer Station and Airport in 2015 which netted the Town a financial benefit of over \$1.1 million in FY 2020. Smaller systems have been installed at the Town’s Adult Community Center as well as roof mounted systems at various school facilities. The Town is exploring the feasibility of solar canopies in parking lots to expand this revenue source.

Potential changes in school enrollments, increasing populations of English Language Learners and Economically Disadvantaged students as well as an aging population of the Town will require an on-going analysis of program services and resource allocation. The School Department has closed five buildings over the past several years as enrollment has declined from 7,000 to 5,400 students. School enrollment has leveled off and a decrease is projected for the 2020-2021 school year; principally due to the COVID-19 pandemic as more children are being

home schooled. The median age of our community is increasing and the demand for services directed towards the senior population will likely increase. A recent study estimated that outreach efforts and the transportation needs for this population will become higher priorities and demand higher levels of service.

The Town continues to manage its financial affairs in a prudent manner. It has been able to do so by incorporating long range planning tools such as a five-year forecast, a five-year Capital Improvement Program; establishing rainy day accounts and budgeting stabilization reserves; prioritizing spending plans and identifying discretionary spending; long-term planning for all liabilities including pension, other post-employment benefits and sewer expansion, and investing in technology to make its operations more efficient.

The Town of Barnstable has also enhanced its revenue flexibility by establishing enterprise funds for certain operations. This has allowed the Town to shift 100% of the operating cost and capital improvements for most of the operations to the users of certain services with no tax support being provided. This includes the airport, the solid waste transfer station, the water pollution control operations, the Hyannis Water System, the PEG operations and Sandy Neck Park. The general fund provides tax support for the HYCC operations, debt service on the Barnstable Marina Bulkhead as well as some indirect operating support for the golf courses. The creation of these enterprise funds allows the Town to provide more tax dollars for other Town services and assist the Town with measuring any subsidy required and setting appropriate fees to recover costs.

2020 Major Financial Highlights

Fund balance. At the end of the year, the Town's general fund balance increased \$6.7 million to \$30.5 million, on a budgetary basis. This was impacted by the pandemic as the Town limited discretionary spending and froze all vacant positions. This resulted in reduced expenditures from what was budgeted. Additionally, revenue was performing very well prior to the pandemic, resulting in actual revenue exceeding budget estimates. Actual revenue collected exceeded expenditures by \$7.8 million and transfers out of the general fund were \$2.4 million in excess of transfers in. Motor vehicle and other excise taxes performed very well exceeding the budget estimate of \$7,647,456 by \$1,151,386. Other departmental revenue exceeded budget estimates by \$2,827,000. Returned appropriations in the general fund exceeded \$3.9 million with \$925,000 being returned by the School department.

Operating budgets. All appropriated budgets including the general fund and enterprise funds had favorable budget variances with the exception of the Golf Enterprise Fund. The COVID-19 pandemic hit this operation very hard as it was forced to close during one of its busiest times. Expenditures were reduced but the operation could not cover its revenue shortfall and had to use a portion of its reserves to cover the operating deficit for FY 2020.

Property taxes receivable. Outstanding property taxes receivable at the end of 2020 were approximately \$1,733,000 less than the previous year end due to better collection rates on past due taxes. Additionally, 96.3 percent of the 2020 net tax levy had been collected as of June 30, 2020.

Tax liens receivable. Tax liens are \$2,205,842 more than they were at the previous year end as the Town issued subsequent tax lien notices for multiple fiscal years in an attempt to improve the collection of past due taxes.

Bonds payable. Bonds payable, including unamortized premiums, decreased by \$1.2 million as principal payments on outstanding bonds exceeded new issues.

Bond sale and bond rating. The Town issued \$10.9 million of new general obligation bonds in 2020. The bonds were used to finance portions of the 2019 and 2020 capital improvement program for projects that were ready to move forward for construction. The bonds were competitively bid and awarded at a net interest cost of 1.67%. A premium of \$1,278,116 was earned on the bond which was applied to the issuance costs and principal amount issued. The Town's bond rating remains at AAA with Standard & Poor's.

Cash and investments. Total cash in the Town's treasury at the end of 2020 increased \$15.9 million from \$168 million to \$183.9 million. This was attributable to the 2020 bond issue and favorable budgetary operations. The following table illustrates the change in the overall cash and investments balance for the past ten years.

FY2011	\$112,028,205
FY2012	\$120,019,687
FY2013	\$117,812,432
FY2014	\$130,175,115
FY2015	\$133,128,951
FY2016	\$145,351,632
FY2017	\$151,750,335
FY2018	\$160,698,910
FY2019	\$168,039,660
FY2020	\$183,968,379

Free cash. Free cash is the balance of cash in the Town's treasury that is free and clear of any and all encumbrances that exist at the close of each year. The Town must submit a set of financial statements at the end of each year to the state from which this number is calculated. Free cash is certified for the general fund and each enterprise fund. Once certified, appropriations can be made from the free cash amounts during the year. The balances as of July 1, 2020 compared to the previous year are disclosed as follows:

Free Cash (Surplus)	On July 1, 2019	On July 1, 2020	Change
General Fund	\$14,688,744	\$18,524,377	\$3,835,633
Enterprise Funds:			
Airport	\$2,761,211	\$3,885,899	\$1,124,688
Golf Course	\$666,343	\$433,134	(\$233,209)
Solid Waste	\$2,294,760	\$1,284,194	(\$1,010,566)
Sewer	\$8,734,747	\$9,942,322	\$1,207,575
Water	\$1,274,703	\$622,194	(\$652,509)
Marina	\$861,350	\$834,302	(\$27,048)
Sandy Neck	\$909,529	\$705,282	(\$204,247)
HYCC	\$593,821	\$724,944	\$131,123
PEG	\$2,324,141	\$2,685,352	\$361,211
Totals	\$35,109,349	\$39,642,000	\$4,532,651

The increases in general fund, airport HYCC and PEG enterprise funds, are mainly attributable to favorable budget variances. The decreases in the other enterprise funds are attributable to unfavorable budget variances. The golf courses were closed for a time due to the public health emergency and sticker renewals at the solid waste transfer stations were extended until July 31st resulting in a temporary revenue shortfall as of June 30th. The Sandy Neck operation also experienced a revenue shortfall due to closures and used surplus to balance its FY 2021 operating budget. The decrease in the Marina and Water Enterprise Funds were mainly attributable to surplus being used to balance the FY 2021 budgets.

Awards and Acknowledgements

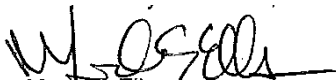

The Government Finance Officer Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Barnstable for its comprehensive annual financial report (CAFR) for the years ended June 30, 2002, through June 30, 2019. In order to be awarded a Certificate of Achievement, the Town published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

In addition, the GFOA also awarded the Town of Barnstable the Distinguished Budget Presentation Award for its annual budget document for the years beginning July 1, 2001, through July 1, 2019. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

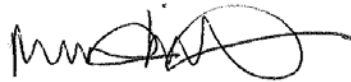

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Town Manager and Finance Division. We would like to express our appreciation to all the members of the departments who assisted and contributed to the preparation of this report. Credit must also be given to the Town Council for their unfailing support for maintaining the highest standards of professionalism in the management of the Town of Barnstable's finances.

Respectfully submitted,

Independent Auditor's Report

To the Honorable Town Council
Town of Barnstable, Massachusetts

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Barnstable, Massachusetts, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Barnstable, Massachusetts' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Town of Barnstable, Massachusetts' discretely presented library component units listed in Note 1. Those statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the discretely presented component units referred to above, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the

business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Barnstable, Massachusetts, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Barnstable, Massachusetts' basic financial statements. The introductory section, combining and individual fund financial statements, schedule of passenger facility charges collected and expended and interest credited, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying schedule of expenditures of passenger facility charges collected and expended and interest credited, as listed in the table of contents, is presented for purposes of additional analysis as specified in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2020, on our consideration of the Town of Barnstable, Massachusetts' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Barnstable, Massachusetts' internal control over financial reporting and compliance.

Powers & Sullivan LLC

December 30, 2020, except for the library component units listed in Note 1, which were audited by other auditors and whose reports are dated on various dates through November 24, 2020.

Management's Discussion and Analysis

Management's Discussion and Analysis

As management of the Town of Barnstable, Massachusetts (Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the year ended June 30, 2020. The Town complies with financial reporting requirements issued by the Governmental Accounting Standards Board (GASB). Management's discussion and analysis are part of these requirements.

GASB is the authoritative standard setting body that provides guidance on how to prepare financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Users of these financial statements (such as investors and rating agencies) rely on the GASB to establish consistent reporting standards for all governments in the United States. This consistent application is the only way users (including citizens, the media, legislators and others) can assess the financial condition of one government compared to others.

Governments must adhere to GASB pronouncements in order to issue their financial statements in conformity with GAAP. The users of financial statements also rely on the independent auditor's opinion. If the Town's financial statements have significant departures from GAAP the independent auditors may issue a qualified opinion or a disclaimer (where no opinion is given). These types of opinions may have an adverse effect on the Town's bond rating and our ability to borrow money at favorable interest rates as well as obtaining grants. The Town has achieved an unmodified opinion on its financial statements since the year ended June 30, 1984.

Financial Highlights

- The assets and deferred outflows of resources of the Town of Barnstable exceeded its liabilities and deferred inflows of resources at the close of the most recent year by \$249.8 million.
- The primary government's total net position increased by \$25.9 million. The increase was the net result of an increase in the Town's governmental activities of \$26.4 million and a decrease of \$485,000 attributable to the Town's business-type activities. The governmental activities increase is mainly attributable to a decrease in other postemployment benefits and related deferred inflows and deferred outflows of resources of \$11.8 million, \$8.0 million in capital grants and favorable budgetary results. The change in governmental activities net position is more fully explained on page 27. The \$485,000 decrease in business-type activities represents the combined operations of the Town's nine enterprise funds.
- At the close of the current year, the Town of Barnstable's governmental funds reported combined ending fund balances of \$130.8 million, an increase of \$9.8 million in comparison with the prior year. Approximately \$41.4 million of this total amount is available for appropriation at the government's discretion.
- At the end of the current year, fund balance for the general fund totaled \$50.1 million, or 29.0% of total general fund expenditures.
- Expenditures for the general fund totaled \$173.0 million, \$5.8 million more than the prior year. The area with the largest change was pension benefits for teachers' retirement which increased \$3.6 million. The second largest area to change was debt service principal which decreased \$2.9 million due to the final payment related to the 1999 high school refunding bond.
- The Town of Barnstable's total long-term debt decreased by \$1.2 million during the current year. The Town issued \$10.9 million of long-term debt, of which \$8.7 million was for governmental activities and \$2.1 million was for business-type activities. A total of \$12.0 million in long-term debt principal was retired.
- In 2020, the beginning net position has been restated to reflect a change in the measurement date for the Town's net OPEB liability. Accordingly, previously reported governmental activities net position of \$113.5

million has been restated to \$100.1 million and previously reported business-type activities net position of \$125.5 million has been restated to \$123.8 million (see Note 16 for additional information).

- COVID-19 – On March 27, 2020, the United States Federal Government established the Coronavirus Aid, Relief and Economic Security (CARES) Act in response to the economic downfall caused by the COVID-19 pandemic. This Act requires that the payment from these funds be used only to cover expenses that; are necessary due to the public health emergency with respect to COVID-19; were not accounted for in the budget most recently approved as of March 27, 2020; and were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. On December 26, 2020, the December 30th deadline was extended by one year. As of June 30, 2020, the Town incurred COVID-19 related expenses totaling \$267,000. The Town anticipates being reimbursed for these costs through the Coronavirus Relief Fund and the Federal Emergency Management Agency.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Barnstable's finances, in a manner similar to private-sector business.

The statement of net position presents information on all of the Town's non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town of Barnstable is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the government-wide financial statements include not only the Town itself (known as the primary government), but also the seven village libraries for which the Town contributes a majority of funding for their annual operations. Although they are legally separate, the libraries receive a significant portion of their annual operating budget from the Town of Barnstable and, therefore, the financial information for these component units is reported separately from the financial information presented for the primary government itself.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Barnstable can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains two major governmental funds that are presented separately in the governmental fund financial statements. The remaining twelve nonmajor funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided as required supplementary information for the general fund to demonstrate compliance with this budget.

Proprietary funds. The Town maintains two types of proprietary funds.

The Town maintains nine different enterprise funds within the proprietary fund type. Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The Town of Barnstable uses enterprise funds to account for its airport, golf course, solid waste, wastewater, water supply, marina recreation, Sandy Neck recreation, the Hyannis Youth and Community Center, and PEG access.

The Town maintains an internal service fund within the proprietary fund type which is reported in governmental activities in the government-wide financial statements. This fund is used to account for the financing of services provided by one department to other departments or governmental units. This fund is used to account for risk financing activities related to workers' compensation.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for airport, golf course, solid waste, wastewater, water supply, marina recreation, Sandy Neck recreation, Hyannis Youth and Community Center, and PEG access all of which are considered major funds of the Town.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The other postemployment benefits trust fund is used to account for assets accumulated to provide funding for future other postemployment benefits (OPEB) liabilities. Private purpose trust funds and agency funds are reported and combined into a single, aggregate presentation in the fiduciary funds financial statements under the captions "private purpose trust funds" and "agency funds", respectively.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town of Barnstable, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$249.8 million at the close of the most recent year.

By far the largest portion of the Town's net position, \$380.9 million, reflects its investment in capital assets (e.g., land, buildings, vehicles, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Town uses these assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position, \$62.4 million, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is a deficit of \$182.3 million. The deficit is the result of the implementation of accounting standards which have required the Town to record its net pension liability of \$89.8 million along with the net other postemployment benefits liability of \$186.0 million. These are long term unfunded liabilities that will not require significant short-term resources.

The change in net position by activity (governmental and business-type) is also a useful measure to assess the financial position of the Town. By understanding the underlying reasons for these changes, communities may be better prepared to make decisions in regard to the allocation of resources from year to year.

Unrestricted.....	(182,272,445)	(198,033,365)	(11,275,317)	(16,021,634)
Total net position.....	<u>\$ 126,468,543</u>	<u>\$ 100,110,015</u>	<u>\$ 123,301,043</u>	<u>\$ 123,785,579</u>

The Town has realized an increase in its net position from 2019 to 2020 for its governmental activities of \$26.4 million and has realized a decrease in its net position from 2019 to 2020 for its business type activities of \$485,000. The 2020 increases are mainly attributable to favorable budgetary results, capital grants, the decrease in the net other postemployment liability, and the community preservation fund which allows the Town to assess additional taxes and to receive state matching funds to be used toward open space, historical preservation, affordable housing, and recreational land improvements. These sources were partially offset by the recognition of net pension obligations which increased by \$4.5 million. In 2020, capital grants totaled \$8.0 million for

governmental activities. Principal payments on debt service for governmental and business-type activities totaled \$7.3 million and \$4.7 million, respectively, including the retirement of bonds. Depreciation on capital assets totaled \$10.6 million and \$8.4 million, respectively.

The majority of the increases to the Town's capital assets during 2020 were in the form of road and drainage improvements and buildings and building improvements. Capital asset growth within the business-type activities for 2020 consisted mainly of marina infrastructure, wastewater infrastructure, and various water system improvements, including pipe replacement projects and water treatment upgrades.

Current and other assets have increased in both governmental activities and business-type activities. In governmental activities, current and other assets increased by approximately \$8.2 million from 2019. This is mainly due to the capital project bond proceeds that have not been spent at year end increasing cash and cash equivalents, and a build-up of capital reserves. For business-type activities, current and other assets have increased \$5.1 million. Cash and cash equivalents and intergovernmental receivables have increased.

Current liabilities have increased in both governmental and business-type activities. The increase was mainly due to the issuance of notes payable in both the governmental and business-type activities.

Long-term liabilities have increased in both governmental activities and business-type activities from the 2019 levels. For both governmental and business-type activities, long-term liabilities have an increase in the net pension liability and a decrease in the other postemployment benefits obligations.

Net investments in capital assets have increased in governmental activities and decreased in business-type activities. This is mainly attributable to capital asset acquisitions and payments on bond principal exceeding depreciation on capital assets and of capital grants used to acquire capital assets.

Restricted net position has decreased by \$3.2 million for governmental activities from 2019 to 2020 mainly due to a decrease in state highway projects revenue and community preservation funds due to a \$2.5 million transfer to the affordable housing trust. The **unrestricted net position** amount has increased \$15.8 million for governmental activities in the current year which was mainly the net result of positive budgetary results and a decrease in the other postemployment benefit liability of \$11.8 million, offset by an increase to the net pension obligation of \$4.5 million. Unrestricted net position of business-type activities increased by \$4.7 million which was the net result of operations of the Town's enterprise funds, an increase in the net other postemployment benefit liability totaling \$6.7 million, offset by a decrease in the net pension liability totaling \$305,000.

Governmental activities. In 2020, governmental activities increased the Town of Barnstable's net position by \$26.4 million. Some key elements of the changes in governmental activities are as follows:

- The Town adopted special legislation to establish the construction and maintenance fund. In accordance with the legislation, the Town reports 100% of the meals tax and 33% of the hotel/motel tax collected directly to this fund. This fund had an ending balance of \$18.9 million, a decrease of \$299,000.
- The Town received \$8.0 million in capital grants, which includes \$6.7 million from state funding of Chapter 90 highway projects.
- While the net OPEB liability increased, the net deferred inflows/outflows related to OPEB had a positive impact on net position; the change in the liability will be recognized through expense in future years.
- The general fund reported an increase of \$6.7 million on a budgetary basis.

FY 2020 Governmental Activities Revenue Type

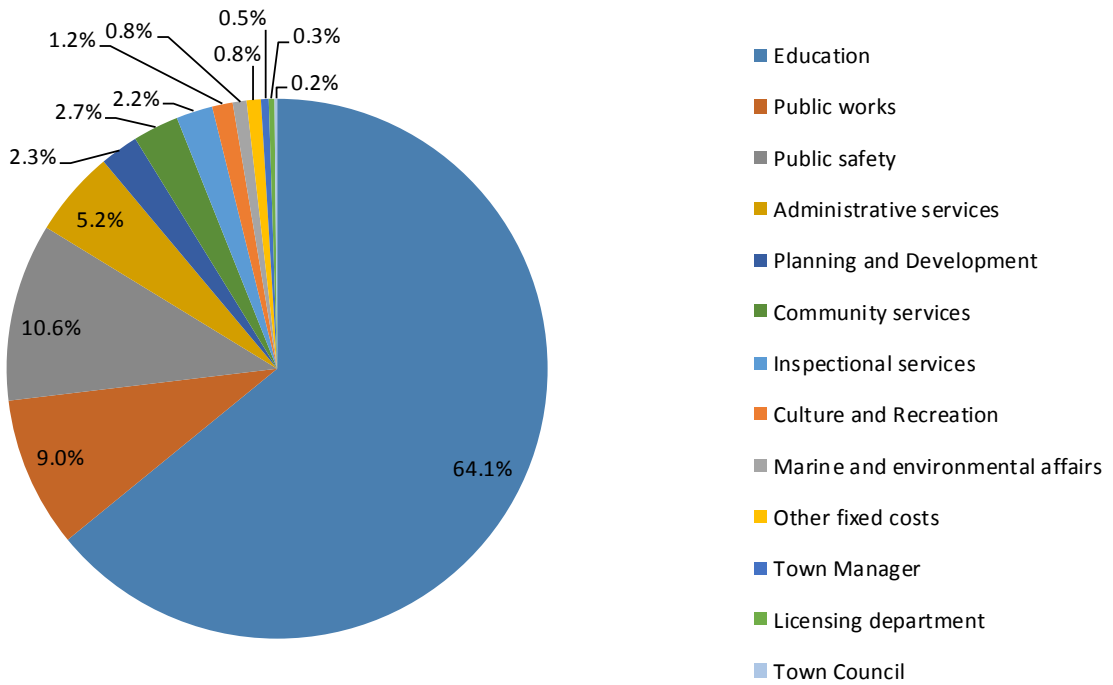

- Charges for services represent 5.2% of governmental activities resources. The Town can exercise more control over this category of revenue than any other. Fees charged for services rendered that are set by the Council and Manager are included in this category.
- Operating and capital grants and contributions account for 23.5% of the resources within governmental activities. Most of these resources apply to education operations. These resources offset costs within the school department in addition to their general fund operating budget.
- Property taxes are by far the most significant revenue source for the Town's governmental activities. They comprise 59.3% of all resources.
- Other taxes and other revenues comprise a total of 12.0% of the governmental activities resources.

Two Year Comparison of Governmental Activities Revenue Composition

- Property taxes decreased from 61.8% to 59.3% of total governmental activities revenue in 2020.
- Capital grants and contributions increased to 3.71% of revenue due to an increase in revenue received for state highway funded projects in 2020.
- All other categories of governmental activities revenue remained relatively the same.
- Collectively, property taxes, excise taxes and community preservation surtax account for 64.9% of all governmental activities revenue in 2020. This is 2.9% lower than the 2019 amount.

FY 2020 Governmental Activities Expenses

- Education is by far the largest governmental activity of the Town totaling \$118.1 million or 64.1% of all expenses.
- Public safety is the second largest activity consisting of \$19.6 million or 10.6%.
- Public works is the third largest category at \$16.6 million or 9.0%.
- 84.6% of all governmental activity is associated with public safety, education, public works, and other fixed costs. The remaining activity, or 15.4%, is associated with community services, inspectional services, licensing department, planning and development, culture and recreation, administrative services, marine and environmental affairs, town council, and town manager.

Two Year Comparison of Governmental Activities Expenses

- Education is the largest area of expenses for governmental activities accounting for 64.1% of all expenses.
- Education, public safety, public works, and other fixed costs collectively account for 84.6% of all expenses in the governmental activities.

Net Expense By Function For Governmental Activities

The change in the net expenses by function from year to year is useful to understand where tax dollars and other general revenues not restricted for particular purposes are being allocated.

- Public safety realized the largest increase in net expenses from 2019 to 2020 of \$1.7 million.
- Administrative services realized the second largest increase in net expenses from 2019 to 2020 of \$1.3 million.
- Public works realized the largest decrease in net expenses from 2019 to 2020 of \$7.7 million.

Business-type activities. Business-type activities decreased the Town’s net position by \$485,000. Key elements of this decrease are as follows:

- \$1.8 million decrease was attributable to airport operations.
- \$100,000 decrease was attributable to golf course operations.
- \$239,000 decrease was attributable to solid waste operations.
- \$880,000 increase was attributable to wastewater operations.
- \$179,000 decrease was attributable to water supply operations.
- \$275,000 increase was attributable to the marina recreation enterprise fund.
- \$86,000 decrease was attributable to the Sandy Neck recreation fund.
- \$535,000 increase was attributable to the Hyannis Youth and Community Center.
- \$211,000 increase was attributable to the PEG access fund.

- The Marina recreation business-type activity has generated net revenue (program revenue less expenses) for the past two years.
- Net revenue does not include investment income and transfers, which have been necessary to allow some of the enterprise funds to meet their debt service obligations.

Financial Analysis of the Government’s Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town of Barnstable’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town of Barnstable’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the year.

At the end of the current year, the Town’s governmental funds reported combined ending fund balances of \$130.8 million, an increase of \$9.8 million in comparison with the prior year.

The general fund is the chief operating fund of the Town. At the end of the current year, unassigned fund balance of the general fund totaled \$41.8 million, restricted fund balance was \$1.8 million, assigned fund balance was

\$6.6 million while total fund balance was \$50.1 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and the total fund balance to total fund expenditures.

Analysis of Fund Balance and General Fund Expenditures

	<u>2020</u>	<u>2019</u>	Increase (Decrease)
Unassigned fund balance	\$ 41,756,577	\$ 36,338,796	\$ 5,417,781
Total fund balance	\$ 50,146,514	\$ 43,657,962	\$ 6,488,552
Total General Fund expenditures	\$ 173,044,924	\$ 167,292,081	\$ 5,752,843
Unassigned fund balance as a % of total GF expenditures	24.13%	21.72%	2.41%
Total fund balance as a % of total GF expenditures	28.98%	26.10%	2.88%

As of June 30, 2020, the Town has planned to use \$3.1 million of fund balance to balance the 2021 general fund budget, which is reported within assigned fund balance.

General Fund Comparison

	<u>2020</u>	<u>2019</u>	Increase (Decrease)
Cash and investments	\$ 57,410,134	\$ 48,160,410	\$ 9,249,724
Receivables and other assets	\$ 17,319,403	\$ 21,016,433	\$ (3,697,030)
Total liabilities and deferred inflows	\$ 24,583,023	\$ 25,518,881	\$ (935,858)
Total fund balance	\$ 50,146,514	\$ 43,657,962	\$ 6,488,552
Revenues	\$ 185,519,039	\$ 175,549,529	\$ 9,969,510
Expenditures	\$ 173,044,924	\$ 167,292,081	\$ 5,752,843
Transfers, net	\$ (5,988,363)	\$ (5,858,395)	\$ (129,968)

- Cash and investments have increased partly due to short term capital funding.
- Receivables have decreased by \$3.7 million from 2019, mostly due to the timing of when receipts from the state were received and the economic effects of the COVID-19 pandemic.
- Liabilities have decreased by \$936,000 mainly due to the timing of year end warrants and accruals.
- Total fund balance has increased mainly due to positive budgetary results.
- The \$10.0 million increase in revenue is comprised mostly of the increase of \$7.6 million in property tax growth and \$3.6 million increase in state funding for the State's teachers' retirement system.
- The \$5.8 million increase in expenditures was mainly due to \$3.6 million expense related to the State's teachers' retirement system and education which increased \$2.7 million largely in part from a budgetary increase.

In accordance with GASB #54, the Town has included the Municipal Purpose Stabilization fund within the unassigned fund balance of the general fund. The fund balance in the municipal purpose stabilization fund has decreased \$571,000 since 2019. This fund is more commonly referred to in Town as the "Capital Trust Fund". Resources are accumulated in this fund to provide for future capital improvements on a pay-as-you-go basis and to pay debt service on borrowing authorizations issued to finance capital improvements. This fund receives an annual transfer from the General Fund (\$10.2 million in 2020) and transfers out a sum of money that equals the annual debt service payments on projects authorized as well as cash appropriations for capital improvements.

In accordance with GASB #54, the Town has classified the fund balance in the pension stabilization fund within the category of restricted fund balance within the general fund. The balance of the pension stabilization fund has decreased by \$137,000 from the prior year.

Changes to other governmental fund balances include the following:

	Fund Balance		Increase (Decrease)
	2020	2019	
Community Preservation Fund	\$ 10,377,588	\$ 11,385,958	\$ (1,008,370)
Nonmajor Governmental Funds	\$ 70,313,344	\$ 66,042,189	\$ 4,271,155

The community preservation fund balance decreased \$1.0 million in 2020. This is mainly due to revenue of \$4.9 million of which \$3.8 million was from taxes, \$905,000 was from state matching fund and \$183,000 in investment income. Expenditures totaled \$3.2 million which included \$1.9 million for debt service. The timing of expenditures is project based and is not directly related to when revenue is received. Transfers out totaled \$2.7 million of which \$2.5 million was for the creation of an affordable housing trust fund.

The nonmajor funds increased by \$4.3 million in 2020. Revenues increased by \$2.2 million from the prior year and expenditures increased by \$5.2 million due to the timing of various projects. Town issued \$8.7 million in bond proceeds and \$1.1 million in premiums. Transfers netted to an increase of \$3.6 million.

In 2020, the Federal Government approved the Coronavirus Aid, Relief, and Economic Security (CARES) Act, which provides federal funding to assist communities in paying costs incurred between March 1, 2020, and December 31, 2020, that are directly related to the COVID-19 pandemic. The Commonwealth of Massachusetts was awarded \$2.7 billion which is to be allocated amongst local governments based on population. The State has made a portion of these funds available as of June 30, 2020. In 2020, the Town spent approximately \$267,000. The Town has received federal funding in 2020 totaling \$160,000.

Proprietary funds. The Town of Barnstable's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Factors concerning the finances of these funds have already been addressed in the discussion of the Town of Barnstable's business-type activities.

General Fund Budgetary Highlights

The \$39,000 increase from the original budget to the final amended budget resulted from the appropriation of available funds (free cash) for public safety salaries totaling \$105,000, and maintenance of former Cotuit Elementary School totaling \$16,500. These appropriation increases were offset by budget reductions for prior year encumbrances that were not expended.

General fund revenues came in over budget by \$4.0 million. All categories of revenues exceeded the budget except for charges for services and departmental and other. Real estate and personal property taxes realized the largest positive variance at \$1.6 million. Motor vehicle and other excise taxes realized the next highest positive variance at \$1.2 million.

General fund expenditures plus encumbrances came in \$3.9 million less than budgeted. All departments realized budget savings except police operating expenses and community services operating expenses. The Town received authorization from the Commonwealth to overspend these budget lines due to costs associated with the COVID-19 pandemic.

Capital Assets and Debt Management

Capital assets. The Town of Barnstable's investment in capital assets for its governmental and business-type activities as of June 30, 2020 amount to \$480.4 million (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements to land and buildings, machinery and equipment, vehicles, roads, sidewalks, bridges, runways and sewer lines. The total net increase in the Town's investment in capital assets for the current year was \$19.5 million (a \$15.4 million increase for governmental activities and a \$4.1 million increase for business-type activities).

Major capital asset events during the current year included the following:

- The Town spent \$31.9 million for various infrastructure improvements including roads, drainage and sidewalks.
- The Town spent \$2.9 million on construction in progress. Of this amount, \$470,000 was for water supply projects and \$1.9 million was for building improvements and drainage projects.
- The Town spent \$2.6 million on equipment and vehicles.
- The Town spent \$3.0 million on various building improvements. Of this amount \$1.5 million was spent on school projects, \$227,000 was spent water building, and \$121,000 on the Hyannis Youth and Community Center building improvements.

Additional information on the Town of Barnstable's capital assets can be found in Note 4 of this report.

Long-term debt. At the end of the current year, the Town of Barnstable had total bonded debt outstanding of \$101.9 million. The entire amount is classified as general obligation bonds and direct borrowings payable and is backed by the full faith and credit of the Town. The Town has no revenue bonds outstanding, which are bonds secured solely by specified revenue sources.

Subtotal Enterprise Funds Direct Borrowings Payable.....				18,535,677
Total Bonds Payable, net.....				\$ 47,668,412

The Town of Barnstable's total long-term debt decreased by \$638,000 during the current year. The decrease was the net result of the issuance of \$10.9 million in new long-term debt used to finance new capital projects; and principal payments of approximately \$12.0 million.

The Town of Barnstable has maintained its bond rating from Standard & Poor's of AAA which was upgraded in June of 2007.

State statutes limit the amount of general obligation debt a governmental entity may issue to 5% of its total equalized property valuation. This limit could go to 10% with the State's Municipal Finance Oversight Board's approval. Additionally, certain general obligation debt is exempt from this limit such as debt associated with school construction and many water improvement projects. The current debt limitation for the Town of Barnstable is \$801.6 million, which is significantly in excess of the Town of Barnstable's outstanding general obligation debt that is subject to this limitation.

Additional information on the Town of Barnstable's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budget and Rates

- New property growth of \$135 million in FY 2020 and \$120 million for FY 2021. Sixty-eight percent of the new property tax growth is concentrated in residential property for both years. In FY20, property taxes generated from new growth totaled \$1.246 million. The Town used a conservative estimate of \$750,000 of property taxes from new building growth for the FY 2021 budget development which ended up totaling \$1.089 million.
- Motor vehicle excise taxes are conservatively projected in 2021 at \$7 million even though the actual collections in 2020 were over \$8.2 million. Revenue in this area has grown significantly over the past few years as the economy was improving during the pre-pandemic period; particularly the automobile industry. A conservative projection was used for FY 2021 as it is still unknown how the auto industry may be impacted by the pandemic.
- Hotel/Motel excise taxes for FY 2021 are projected at \$1.45 million. The FY 2020 actual amount collected was \$1.95 million. The significant decrease in the estimate used for FY 2021 is due to the pandemic and its impact on the hospitality industry. This industry has been hit harder than any other during the COVID-19 public health emergency. As the local rooms tax now applies to the short-term rental market, some of the lost revenue from taxes on traditional lodging can be made up for with taxes on these types of property. It is estimated that the Town has over 800 short-term rental properties per data received from the state's registry.
- Chapter 70 Aid for education is estimated to be \$13,011,056 in 2021 and \$782,856 more than the FY 2020 amount. Significant changes were made to the Foundation Budget under the Chapter 70 Aid Program. The changes are proposed to be phased in over a seven-year period which should result in an increase in aid for the Town in the future. Recognition of additional expenditures needed to educate English Language Learners and Economically Disadvantaged students has increased aid in this program and the Town has a growing population in both categories of students.
- Penalties and interest on the late payment of taxes are budgeted at \$582,000 less than the FY 2020 actual amount collected. This is a conservative estimate that will create more budget flexibility for the Town going forward.
- Investment income for FY 2021 is conservatively projected at \$460,000; well below the actual amount earned in FY 2020 amount of \$946,000. Investment rates earned on excess cash deposits are holding steady and the Town's cash balances have increased, offering the opportunity for more budget flexibility going forward.
- Permit and license revenue collected in FY 2020 totaled \$2.356 million. This category of revenue was conservatively projected in FY 2021 at \$1.614 million as the total impact from the COVID-19 pandemic remains unknown. Actual collections to date in FY 2021 show no significant impact to date.

- Beach revenue in FY 2020 totaled \$2,518,000; the fifth year in a row it exceeded \$2.5 million indicating a strong tourism economy. Even with the COVID-19 pandemic, waterside activities were one outdoor activity residents and visitors were able to participate in under safe circumstances.
- The interest rate on bond issues continue to be favorable with the improving economy. The Town's last bond issue in FY 2020 sold at a 1.67% interest rate. The Town's FY 2021 Capital Improvement Program authorized \$7.242 million in new borrowings. This was significantly less than what was originally anticipated. It was reduced due to the unknown impacts on the Town's finances from the COVID-19 public health emergency. The expected interest rate on the Town's FY 2021 bond sale is estimated to be under 2.5%.
- The FY 2021 general fund operating budget of \$166.1 million (net of transfers) is \$51,000 more than the FY 2020 approved budget. The budget did not change significantly due to the COVID-19 pandemic. Several operating expenses were reduced to offset fixed cost increases in order to come up with essentially a level funded budget.
- The FY 2021 budget for all education operations is up \$1.75 million, municipal operations are down \$943,000 and fixed costs are down \$628,000.
- The FY 2021 employee benefits budget is down \$130,000.
- The FY 2021 debt service budget is down \$585,000 and other fixed costs are up \$87,000.
- The Police Department realized the largest dollar decrease in the municipal operations budget for FY2021 at \$600,630. Several vacant positions are not being funded and will be filled once the impact from the public health emergency is better known.
- The Marine and Environmental Affairs Department realized the largest percentage decrease (9.6%) in the municipal operating budget as operating capital of \$106,000 for equipment replacement was not repeated.
- The Town used \$3,104,280 of free cash to balance the FY 2021 operating and capital budgets. \$950,531 was used to balance the School Department operating budget; \$1,593,648 was used to cover fixed costs, \$250,000 for a Town Council reserve fund, \$76,547 for municipal operations and \$233,554 for the Capital Program.
- The tax levy for FY 2021 is estimated to be \$132,058,458, or \$3,666,102 higher than the FY 2020 levy. This includes the state allowed 2.5% increase and new growth of \$1,089,115 and excluded debt of \$1,971,714 for the new Cape Cod Technical Regional High School.
- The FY 2021 single town tax rate is estimated to be \$8.26 which is twenty-five cents less than the FY 2020 tax rate before any tax levy shifting options adopted by the Town.
- If a 20% residential exemption is adopted in FY 2021 this would result in a residential tax rate of \$9.10 which is twenty-seven cents less than the FY 2020 residential tax rate.
- The Town's property value increase in FY 2021 to \$15.98 billion. This is an increase of 5.9% which is driving the decrease in the tax rate. FY 2021 was a revaluation year for the Town, which is on the new five-year revaluation cycle per state requirements.
- The Town Council supported a residential exemption of 20% in FY 2020. The exemption value for FY 2020 was \$104,121. It is expected that the residential exemption will be adopted at 20% again in FY 2021. This will result in an exemption value of \$108,417. Qualifying residential property owners receive a deduction off their taxable values before the tax rate is applied. This equates to an approximate savings of \$660 for the median home value of a qualifying resident.
- The median home value in Town was \$376,000 in FY 2020 and is \$388,500 in FY 2021. For a property qualifying with the residential exemption, this equates to a tax bill of \$2,548 in FY 2020 and \$2,549 in FY2021; essentially no increase.
- The Town Council did not adopt a split tax rate or a small business exemption for FY 2020 consistent with the previous year and this is expected to be repeated in FY 2021.
- General fund free cash was certified by the State Division of Local Services as of July 1, 2020 at \$18,524,377.

- Enterprise fund retained earnings were certified at:
 - Water - \$622,194
 - Wastewater - \$9,942,322
 - Solid Waste - \$1,284,194
 - Golf - \$433,134
 - Airport - \$3,885,899
 - Marinas - \$834,302
 - Sandy Neck - \$705,282
 - HYCC - \$724,944
 - PEG - \$2,685,352
- Other reserves at the end of FY 2020 include:
 - \$19.9 million in stabilization funds
 - \$19.9 million in comprehensive wastewater management & private way improvement funds
 - \$910,000 in municipal revolving funds
 - \$4 million in school revolving funds
 - \$1.8 million in school circuit breaker funds
 - \$10.4 million in community preservation funds

Requests for Information

This financial report is designed to provide a general overview of the Town of Barnstable's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, 3rd Floor, School Administration Building, 230 South Street, Hyannis, MA, 02601.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES**

YEAR ENDED JUNE 30, 2020

Net change in fund balances - total governmental funds.....		\$ 9,751,337
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.</p>		
Capital outlay.....	25,916,249	
Depreciation expense.....	<u>(10,554,427)</u>	
Net effect of reporting capital assets.....		15,361,822
<p>Revenues in the Statement of Activities that do not provide current financial resources are unavailable in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable differ between the two statements. This amount represents the net change in unavailable revenue.....</p>		
		(3,673,751)
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are unavailable and amortized in the Statement of Activities.</p>		
Issuance of bonds.....	(8,728,100)	
Premium from issuance of bonds.....	(1,142,116)	
Net amortization of premium from issuance of bonds.....	367,680	
Debt service principal payments.....	<u>7,268,620</u>	
Net effect of reporting long-term debt.....		(2,233,916)
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.</p>		
Net change in compensated absences accrual.....	(759,204)	
Net change in accrued interest on long-term debt.....	(52,122)	
Net change in deferred outflow/(inflow) of resources related to pensions.....	(3,549,195)	
Net change in net pension liability.....	(935,594)	
Net change in deferred outflow/(inflow) of resources related to other postemployment benefits...	49,400,716	
Net change in net other postemployment benefits liability.....	<u>(37,577,632)</u>	
Net effect of recording long-term liabilities.....		6,526,969
The net activity of internal service funds is reported with Governmental Activities.....		<u>626,067</u>
Change in net position of governmental activities.....		\$ <u><u>26,358,528</u></u>

See notes to basic financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the Town of Barnstable, Massachusetts (Town) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The significant Town accounting policies are described herein.

A. Reporting Entity

The Town was incorporated in 1639 under the Acts of the Commonwealth of Massachusetts (Commonwealth). The Town is composed of the seven villages of Hyannis, Osterville, Centerville, Cotuit, Barnstable, Marstons Mills, and West Barnstable. The Town is organized in accordance with its Home Rule Charter that was adopted in May 1989 under the Council-Manager form of government, which consists of an elected eleven-member Town Council (Council) and a Town Manager (Manager) who is appointed by the Council. The Manager supervises and directs the administration of all municipal departments, except the School Department and the Barnstable Municipal Airport, which are supervised and directed by the School Committee and the Airport Commissioners, respectively.

For financial reporting purposes, the Town has included all funds, organizations, agencies, boards, commissions and institutions. The Town has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the Town (primary government) and its component units. Seven entities have been included as component units in the reporting entity, because of the significance of their operational and/or financial relationships with the Town.

Discretely Presented Component Units – Discretely presented component units are entities that are legally separate from the Town, but are financially accountable to the Town, or whose relationships with the Town are such that exclusion would cause the Town's financial statements to be misleading or incomplete. The Town has included seven libraries as Discretely Presented Component Units because they are fiscally dependent on the Town and because the nature and significance of their relationship with the Town is such that exclusion would cause the Town's financial statements to be misleading or incomplete. Accordingly, the Component Units column of the combined financial statements includes the financial data of the following entities:

- The Hyannis Public Library Association, Centerville Public Library Association, Osterville Free Library Corporation, Marstons Mills Public Library, Inc., Whelden Memorial Library, Cotuit Library Association and the Sturgis Library were established to provide suitable library facilities to Town residents and visitors. The libraries are governed by separately elected Boards of Trustees.

Availability of Financial Information for Component Units

Complete financial statements of the individual component units can be obtained directly from their respective administrative offices.

Hyannis Public Library Association
401 Main Street
Hyannis, MA 02601

The Sturgis Library
P.O. Box 606
Barnstable, MA 02630

Osterville Free Library Corporation
43 Wianno Avenue
Osterville, MA 02655

Cotuit Library Association

Cotuit, MA 02635

The Centerville Public Library Association
Centerville, MA 02636

Marstons Mills Public Library, Inc.
Main Street
Marstons Mills, MA 02648

Whelden Memorial Library
Meetinghouse Way
West Barnstable, MA 02668

All of the discretely presented Component Units were audited by auditors other than Powers & Sullivan, LLC.

Availability of Financial Information for Joint Ventures

The Town has entered into joint ventures with other municipalities to pool resources and share the costs, risks and rewards of providing goods or services to venture participants directly, or for the benefit of the general public or specified recipients. The Town has no equity interest in the joint ventures. The following identifies where the joint venture financial statements are available, their purpose, and the annual assessment paid by the Town during 2020.

<u>Joint venture and address</u>	<u>Purpose</u>	<u>Net Annual Assessment</u>
Cape Cod Regional Technical High School District 351 Pleasant Lake Avenue Harwich, MA 02645	To provide educational services	\$ 6,080,676
Sturgis Charter Public School 427 Main Street Hyannis, MA 02601	To provide educational services	\$ 5,166,922
Cape Cod Regional Transit Authority 215 Iyannough Road Hyannis, MA 02601	To provide public transportation	\$ 593,494

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements (i.e., statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units.

Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which are supported primarily by user fees and charges.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and displayed in a single column.

Major Fund Criteria

Major funds must be reported if the following criteria are met:

- If the total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of an individual governmental or enterprise fund are at least 10 percent of the corresponding element (assets and deferred outflows of resources, liabilities and deferred inflows or resources, etc.) for all funds of that category or type (total governmental or total enterprise funds), *and*
- If the total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding element for all governmental and enterprise funds combined.

Additionally, any other governmental or enterprise fund that management believes is particularly significant to the basic financial statements may be reported as a major fund.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred. Real estate and personal property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a particular function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include the following:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment.

- Grants and contributions that are restricted to meeting the operational requirements of a particular function or segment.
- Grants and contributions that are restricted to meeting the capital requirements of a particular function or segment.

Taxes and other items not identifiable as program revenues are reported as general revenues.

For the most part, the effect of interfund activity has been removed from the government-wide financial statements. However, the effect of interfund services provided and used between functions is not eliminated as the elimination of these charges would distort the direct costs and program revenues reported for the functions affected.

Fund Financial Statements

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences, and legal settlements which are recognized when the obligations are expected to be liquidated with current expendable available resources.

Real estate and personal property tax revenues are considered available if they are collected within 60 days after year-end. Investment income is susceptible to accrual. Other receipts and tax revenues become measurable and available when the cash is received and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The following major governmental funds are reported:

The *general fund* is the primary operating fund. It is used to account for and report all financial resources, except those that are required to be accounted for in another fund.

The *community preservation fund* is a special revenue fund used to account for and report funds collected in accordance with the Cape Cod Open Space Land Acquisition Program. The funds may be used for acquiring land and interests in land for the protection of public drinking water supplies, open space and conservation and the creation of walking trails, bicycling trails and recreational areas.

The nonmajor governmental funds consist of other special revenue, capital projects and permanent funds that are aggregated and presented in the *nonmajor governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

The *special revenue fund* is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than permanent funds or capital projects.

The *capital projects fund* is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other

capital assets of the governmental funds.

The *permanent fund* is used to account for and report financial resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the governmental programs.

The *component units* are used to account for and report the activity of the entities that are separate from the primary government but are financially accountable to the Town. The component units are reported using the flow of economic resources measurement focus and the accrual basis of accounting and are discretely presented in the basic financial statements.

Proprietary fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The following major proprietary funds are reported:

The *airport enterprise fund* is used to account for and report the Barnstable Municipal Airport activities.

The *golf course enterprise fund* is used to account for and report the Olde Barnstable Fairgrounds Golf Course and the Hyannis Golf Course activities.

The *solid waste enterprise fund* is used to account for and report the Town's solid waste transfer station and recycling activities.

The *wastewater enterprise fund* is used to account for and report the Town's sewer activities.

The *water supply enterprise fund* is used to account for and report the Town's water activities.

The *marina recreation enterprise fund* is used to account for and report the Town's marina activities.

The *Sandy Neck recreation enterprise fund* is used to account for and report the Town's Sandy Neck recreation activities.

The *Hyannis Youth and Community Center enterprise fund* is used to account for and report the Town's youth and community center activities.

The *PEG Access enterprise fund* is used to account for and report the Town's cable television.

Additionally, the following proprietary fund type is reported:

The *internal service fund* is used to account for the financing of services provided by one department to other departments or governmental units. This fund is used to account for risk financing activities related to workers' compensation.

Fiduciary fund financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for and report assets held in a trustee

capacity for others that cannot be used to support the governmental programs.

The following fiduciary fund types are reported:

The *other postemployment benefit trust fund* is used to accumulate resources to provide funding for future other postemployment benefits (OPEB) liabilities.

The *private purpose trust fund* is used to account for and report trust arrangements that exclusively benefit individuals, private organizations, or other governments. Some of these trusts have donor restrictions and trustee policies that do not allow the endowment portion and any unrealized appreciation to be spent. The restrictions and trustee policies only allow the trustees to approve spending of the realized investment earnings. The Town's educational scholarships and assistance to benefit the needy activities are accounted for in this fund.

The *agency fund* is used to account for and report assets held in a purely custodial capacity. Agency funds apply the accrual basis of accounting but do not have a measurement focus. The Town's agency fund consists of off-duty work details, performance bonds, student activity accounts and fees collected on behalf of other governments.

D. Cash and Investments

Government-Wide and Fund Financial Statements

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition.

Investments are carried at fair value. The fair values were determined by the closing price for those securities traded on national stock exchanges and at the average bid-and-asked quotation for those securities traded in the over-the-counter market.

E. Fair Value Measurements

The Town reports required types of financial instruments in accordance with the fair value standards. These standards require an entity to maximize the use of observable inputs (such as quoted prices in active markets) and minimize the use of unobservable inputs (such as appraisals or valuation techniques) to determine fair value. Fair value standards also require the government to classify these financial instruments into a three-level hierarchy, based on the priority of inputs to the valuation technique or in accordance with net asset value practical expedient rules, which allow for either Level 2 or Level 3 depending on lock up and notice periods associated with the underlying funds.

Instruments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 – Quoted prices are available in active markets for identical instruments as of the reporting date. Instruments, which are generally included in this category, include actively traded equity and debt securities, U.S. government obligations, and mutual funds with quoted market prices in active markets.

Level 2 – Pricing inputs are other than quoted in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Certain fixed income securities, primarily corporate bonds, are classified as Level 2 because fair values are estimated using pricing models, matrix pricing, or discounted cash flows.

Level 3 – Pricing inputs are unobservable for the instrument and include situations where there is little, if any,

market activity for the instrument. The inputs into the determination of fair value require significant management judgment or estimation.

In some instances, the inputs used to measure fair value may fall into different levels of the fair value hierarchy and is based on the lowest level of input that is significant to the fair value measurement.

Market price is affected by a number of factors, including the type of instrument and the characteristics specific to the instrument. Instruments with readily available active quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value. It is reasonably possible that change in values of these instruments will occur in the near term and that such changes could materially affect amounts reported in these financial statements. For more information on the fair value of the Town's financial instruments, see Note 2 – Cash and Investments.

F. Accounts Receivable

Government-Wide and Fund Financial Statements

The recognition of revenue related to accounts receivable reported in the government-wide financial statements and the proprietary funds and fiduciary funds financial statements are reported under the accrual basis of accounting. The recognition of revenue related to accounts receivable reported in the governmental funds financial statements is reported under the modified accrual basis of accounting.

Real Estate, Personal Property Taxes and Tax Liens

Real estate and personal property taxes are levied and based on values assessed on January 1st of every year. Assessed values are established by the Board of Assessor's for 100% of the estimated fair market value. Taxes are due on August 1st, November 1st, February 1st, and May 1st and are subject to penalties and interest if they are not paid by the respective due date. Real estate and personal property taxes levied are recorded as receivables in the year of the levy.

Real estate tax liens are processed approximately three months after the due date on delinquent properties and are recorded as receivables in the year they are processed.

Real estate receivables are secured via the tax lien process and are considered 100% collectible. Accordingly, an allowance for uncollectibles is not reported.

Personal property taxes cannot be secured through the lien process. The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

Motor Vehicle and Other Excise Taxes

Motor vehicle excise taxes are assessed annually for each vehicle registered and are recorded as receivables in the year of the levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair values of those vehicles. The tax calculation is the fair value of the vehicle multiplied by \$25 per \$1,000 of value. Boat excise taxes are assessed annually for each boat registered and are recorded as receivables in the year of the levy. The Commonwealth is responsible for reporting the number of boats registered and the fair value of those boats. The tax calculation is the fair value of the boat multiplied by \$10 per \$1,000 of value; with a maximum taxable value of \$50,000.

The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

Departmental and Other

Departmental and other receivables of the primary government consist primarily of refunds paid by the Town on behalf of the local Fire Districts. The Town collects taxes on behalf of the Fire Districts and pays refunds to customers. The Fire Districts are billed for refunds paid on their behalf and a receivable is recorded at the time the payment is made. The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

Departmental and other receivables of the component units consist of the present value of future bequests that are anticipated to be received under the terms of charitable trusts.

Room Occupancy Tax

The Town levies 6% of the cost of renting hotel, motel, lodging house and bed and breakfast rooms in accordance with Massachusetts General Law, Chapter 64G, Section 3A. The tax is paid by the operator of each establishment to the State Commissioner of Revenue, who in turn pays the tax back to the Town in quarterly distributions. The room occupancy tax receivable is categorized as an intergovernmental receivable.

Through special legislation, the Town approved an increase to the room occupancy tax to be directed into the construction and maintenance fund. This fund, which is reported as a major fund, recorded 33% of the room occupancy tax receivable as an intergovernmental receivable.

This receivable is considered 100% collectible and therefore does not report an allowance for uncollectibles.

Meals Tax

The Town levies 0.75% for the sale of restaurant meals in accordance with Massachusetts General Law, Chapter 64L, Section 2. The tax is paid by the operator of each establishment to the State Commissioner of Revenue, who in turn pays the tax back to the Town in quarterly distributions. The meals tax receivable is categorized as an intergovernmental receivable.

Through special legislation, the Town records 100% of the meals tax revenue into the construction and maintenance fund. This fund, which is reported as a major fund, recorded the meals tax receivable as an intergovernmental receivable.

This receivable is considered 100% collectible and therefore does not report an allowance for uncollectibles.

Intergovernmental

Various federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, revenue is recognized as soon as all eligibility requirements imposed by the provider have been met. For expenditure driven grants, revenue is recognized when the qualifying expenditures are incurred and all other grant requirements are met.

These receivables are considered 100% collectible and therefore do not report an allowance for uncollectibles.

Community Preservation Fund Surtaxes

Community Preservation Fund Surtaxes, formerly known as Land Bank Surtaxes, consist of an excise tax of 3% of the real estate tax levy against real property which is levied by the Town as part of the Cape Cod Open Space Land Acquisition Program.

Since the receivables are secured via the lien process, these accounts are considered 100% collectible and therefore do not report an allowance for uncollectibles.

Airport User Fees

Airport user fees consist of the sale of jet fuel, car rental concessions, vehicle parking revenue and landing fees, and various lease arrangements for land and buildings.

The allowance for uncollectibles is estimated based on historical trends and specific account analysis.

Wastewater and Water User Fees

Wastewater and water user fees are levied quarterly based on individual meter readings and are subject to penalties and interest if they are not paid by the respective due date. Delinquent charges on wastewater are added to the property owner's tax bill in the year after they are due. Charges and liens are recorded as receivables in the year of the levy.

Since the wastewater receivables are secured via the lien process, these accounts are considered 100% collectible and therefore do not report an allowance for uncollectibles. The allowance for uncollectibles for water user fees is estimated based on historical trends and specific account analysis.

Special Assessments

Special assessments in the wastewater fund consist of apportioned and unapportioned sewer betterments assessed to homeowners whose properties were improved through Town-run sewer construction projects.

Since the receivables are secured via the lien process, these accounts are considered 100% collectible and therefore do not report an allowance for uncollectibles.

G. Inventories

Government-Wide and Fund Financial Statements

Inventories of the Airport and Golf Courses are priced at the lower of cost or market, with cost being determined on the first-in, first-out method basis. Expendable supplies and small tools are not inventoried but rather expensed when purchased.

Inventories of the Sturgis Library are carried at cost.

All other inventories are recorded as expenditures at the time of purchase. Such inventories are not material in total to the government-wide and fund financial statements, and therefore are not reported.

H. Capital Assets

Government-Wide and Proprietary Fund Financial Statements

Capital assets, which include land, construction in progress, land improvements, buildings, building improvements, machinery and equipment, vehicles, and infrastructure (e.g., roads, water mains, sewer mains, and similar items), are reported in the applicable governmental or business-type activity column of the government-wide financial statements. Capital assets are recorded at historical cost, or at estimated historical cost if actual historical cost is not available. Donated capital assets; donated works of art, historical treasures and

similar assets; and capital assets received in service concession arrangements are recorded at acquisition value. Except for the capital assets of the governmental activities column in the government-wide financial statements, construction period interest is capitalized on constructed capital assets.

All purchases and construction costs in excess of \$25,000 are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than one year.

Capital assets (excluding land and construction in progress) are depreciated on a straight-line basis. The estimated useful lives of capital assets are as follows:

Capital Asset Type	Estimated Useful Life (in years)
Land improvements.....	20
Buildings.....	40
Buildings and improvements.....	20
Machinery and equipment.....	5 - 10
Vehicles.....	5
Infrastructure.....	50

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

Governmental Fund Financial Statements

Capital asset costs are recorded as expenditures in the acquiring fund in the year of the purchase.

I. Deferred Outflows/Inflows of Resources

Government-Wide Financial Statements (Net Position)

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The Town has reported deferred outflows for refunding debt, deferred outflows of resources related to pensions, and deferred outflows of resources related to other postemployment benefits in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The Town has reported deferred inflows of resources related to pensions and deferred inflows of resources related to other postemployment benefits in this category.

Governmental Fund Financial Statements

In addition to liabilities, the governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents amounts that have been recorded in the governmental fund financial statements but the revenue is not

available and so will *not* be recognized as an inflow of resources (revenue) until it becomes available. The Town has recorded unavailable revenue as deferred inflows of resources in the governmental funds balance sheet.

J. Interfund Receivables and Payables

During the course of its operations, transactions occur between and within individual funds that may result in amounts owed between funds.

Government-Wide Financial Statements

Transactions of a buyer/seller nature between and within governmental funds and internal service funds are eliminated from the governmental activities in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of net position as "internal balances".

Fund Financial Statements

Transactions of a buyer/seller nature between and within funds are *not* eliminated from the individual fund statements. Receivables and payables resulting from these transactions are classified as "Due from other funds" or "Due to other funds" on the balance sheet.

K. Interfund Transfers

During the course of its operations, resources are permanently reallocated between and within funds. These transactions are reported as transfers in and transfers out.

Government-Wide Financial Statements

Transfers between and within governmental funds and internal service funds are eliminated from the governmental activities in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of activities as "Transfers, net".

Fund Financial Statements

Transfers between and within funds are *not* eliminated from the individual fund statements and are reported as transfers in and transfers out.

L. Unavailable Revenue

Unavailable revenue at the governmental fund financial statement level represents billed receivables that do not meet the available criterion in accordance with the current financial resources measurement focus and the modified accrual basis of accounting, i.e. receivables that are not considered to be available to liquidate liabilities of the current period. Unavailable revenue is recognized as revenue in the conversion to the government-wide (full accrual) financial statements.

M. Net Position and Fund Equity

Government-Wide Financial Statements (Net Position)

Net position reported as "net investment in capital assets" includes capital assets, net of accumulated depreciation, less the principal balance of outstanding debt used to acquire capital assets. Unspent proceeds of

capital related debt are not considered to be capital assets. Outstanding debt related to future reimbursements from the state's school building program and the Massachusetts Clean Water Trust's loan subsidy program are not considered to be capital related debt.

Net position is reported as restricted when amounts are not available for appropriation or are legally restricted by outside parties for a specific future use.

Net position has been "restricted for" the following:

"Construction and maintenance" represents amounts restricted for sewer construction and private way maintenance and improvements.

"Highway projects" represents amounts restricted for highway improvements.

"Permanent funds – expendable" represents the amount of realized and unrealized investment earnings of donor restricted trusts. The donor restrictions and trustee policies only allow the trustees to approve spending of the realized investment earnings that support governmental programs.

"Permanent funds – nonexpendable" represents the endowment portion of donor restricted trusts that support governmental programs.

"Gifts and grants" represents restrictions placed on assets from outside parties and consists primarily of gifts and federal and state grants.

"Community preservation" represents amounts held for uses restricted by law for community preservation purposes.

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Financial Statements (Fund Balances)

Governmental fund balances are classified as nonspendable, restricted, committed, assigned, or unassigned based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The governmental fund balance classifications are as follows:

"Nonspendable" fund balance includes amounts that cannot be spent because they are either not in spendable form or they are legally or contractually required to be maintained intact.

"Restricted" fund balance includes amounts subject to constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or that are imposed by law through constitutional provisions or enabling legislation.

"Committed" fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Town Council is the highest level of decision making authority that can, by Town Council vote, commit funds for a specific purpose.

Once voted, the limitation imposed by the vote remains in place until the funds are used for their intended purpose or a vote is taken to rescind the commitment.

“Assigned” fund balance includes amounts that are constrained by the Town’s intent to be used for specific purposes, but are neither restricted nor committed. The Town’s ordinances authorize the Finance Director to assign fund balance. Assignments generally only exist temporarily. Additional action does not have to be taken for the removal of an assignment.

“Unassigned” fund balance includes the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount.

Sometimes the Town will fund outlays for a particular purpose from different components of fund balance. In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. When different components of fund balance can be used for the same purpose, it is the Town’s policy to consider restricted fund balance to have been depleted first, followed by committed fund balance, and assigned fund balance. Unassigned fund balance is applied last.

N. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of both the Barnstable County Retirement Association (BCRA) and the Massachusetts Teachers’ Retirement System and additions to/deductions from the Systems’ fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Long-term debt

Government-Wide and Proprietary Fund Financial Statements

Long-term debt is reported as liabilities in the government-wide and proprietary fund statement of net position. Material bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Governmental Fund Financial Statements

The face amount of governmental funds long-term debt is reported as other financing sources. Bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual bond proceeds received, are reported as general government expenditures.

P. Investment Income

Excluding the permanent funds, investment income derived from nonmajor governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Law (MGL).

Q. Compensated Absences

Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements, state laws and executive policies.

Government-Wide and Proprietary Fund Financial Statements

Vested or accumulated vacation and sick leave are reported as liabilities and expensed as incurred.

Governmental Fund Financial Statements

Vested or accumulated vacation and sick leave, which will be liquidated with expendable available financial resources, are reported as expenditures and fund liabilities upon maturity of the liability.

R. Use of Estimates

Government-Wide and Fund Financial Statements

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the year. Actual results could vary from estimates that were used.

S. Fund Deficits

An individual fund deficit exists within the Town Revolving Funds. This deficit will be funded with bond proceeds.

T. Total Column

Government-Wide Financial Statements

The total column presented on the government-wide financial statements represents consolidated financial information.

Fund Financial Statements

The total column on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

NOTE 2 – CASH AND INVESTMENTS

A cash and investment pool is maintained that is available for use by all funds. Each fund type's portion of this pool is displayed on the balance sheet as "Cash and Cash Equivalents". The deposits and investments of the trust funds are held separately from those of other funds.

Statutes authorize the investment in obligations of the U.S. Treasury, agencies, instrumentalities, certificates of deposit, repurchase agreements, money market accounts, bank deposits and the State Treasurer's Investment Pool (Pool). The Treasurer may also invest trust funds in securities, other than mortgages or collateral loans, which are legal for the investment of funds of savings banks under the laws of the Commonwealth.

The Pool meets the criteria of an external investment pool. The Pool is administered by the Massachusetts Municipal Depository Trust (MMDT), which was established by the Treasurer of the Commonwealth who serves as Trustee. The fair value of the position in the Pool is the same as the value of the Pool shares. There are no limitations or restrictions on participant withdrawals, i.e. no redemption notice periods, maximum transaction amounts, ability of pool to impose liquidity fees or redemption gates.

The library component units report \$2,487,257 in cash, \$36,612 in restricted cash and \$6,394,436 in investments which are not included in the Town's cash and investments disclosures below.

Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Town of Barnstable's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. At year-end, the carrying amount of deposits totaled \$105,815,613 and the bank balance totaled \$92,719,543. Of the bank balance, \$2,141,412 was covered by Federal Depository Insurance, \$16,299,824 was covered by the Depositors Insurance Fund, \$8,367,910 was collateralized, and \$65,910,397 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Investments

As of June 30, 2020, the Town of Barnstable had the following investments:

<u>Investment Type</u>	<u>Fair value</u>	<u>Maturities</u>			
		<u>Under 1 Year</u>	<u>1-5 Years</u>	<u>6-10 Years</u>	<u>Over 10 Years</u>
<u>Debt securities:</u>					
U.S. treasury notes.....	\$ 13,701,739	\$ 1,804,768	\$ 10,425,655	\$ 1,471,316	\$ -
Government sponsored enterprises.....	13,769,984	1,802,105	9,082,910	1,878,744	1,006,225
Corporate bonds.....	10,342,040	2,902,158	5,983,098	1,456,784	-
Total debt securities.....	37,813,763	\$ 6,509,031	\$ 25,491,663	\$ 4,806,844	\$ 1,006,225
<u>Other investments:</u>					
Equity securities.....	20,947,958				
Equity mutual funds.....	1,793,940				
Repurchase agreement.....	836,620				
Fixed income mutual funds.....	8,982,216				
International securities.....	2,466,403				
Money market mutual funds.....	4,295,858				
Mutual funds.....	901,697				
MMDT - Cash portfolio.....	41,477				
Total investments.....	\$ 78,079,932				

The Town participates in the MMDT cash portfolio. MMDT maintains a cash portfolio and a short-term bond fund with combined average maturities of approximately 3 months.

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of a failure by the counterparty, the Town will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. Of the Town's investments, \$37,813,763 in debt securities and \$20,947,958 in equity securities are exposed to custodial credit risk because the related securities are uninsured, unregistered and held by the counterparty. The Town's investment policy places no limit on the amount of U.S. Treasury and U.S. Government Agency obligations. In regard to other investments, the Town will only purchase investment grade securities with a high concentration in securities rated "A" or better. At June 30, 2020, the Town's investments in MMDT which totaled \$41,477 are not

subject to custodial credit risk exposure because they are not evidenced by securities that exist in physical or book-entry form.

As of June 30, 2020, the Town had an investment with a fair value of \$836,620 in an overnight Repurchase Agreement (REPO). Under the terms of the REPO, the bank agrees to sell and buy back a portion of the Bank's securities portfolio at the purchase price plus interest. The REPO is held by the bank, acting as the Town's agent. In the event of default, the Town has the right to direct the bank to sell the securities and apply the proceeds in satisfaction of the Repurchase Agreement. The REPO is fully collateralized with Collateralized Mortgage Obligation fixed rate securities issued through the Federal National Mortgage Association. The REPO is not rated, and the collateral has a Moody's rating of AAA.

Interest Rate Risk

The Town's policy is to concentrate its investment portfolio in shorter-term securities in order to limit principal risk caused by changes in interest rates. For general Town funds, the weighted average days to maturity for the overall Town portfolio should be less than 365 days.

Credit Risk

The Town has not adopted a formal policy related to Credit Risk. At June 30, 2020, the Town's investments were rated as follows:

<u>Quality Rating</u>	<u>Government Sponsored Enterprises</u>	<u>Corporate Bonds</u>
AAA.....	\$ 13,769,984	\$ 27,628
AA+.....	-	108,024
AA.....	-	132,691
AA-.....	-	499,362
A+.....	-	1,096,120
A.....	-	1,388,115
A-.....	-	1,477,694
BBB+.....	-	4,247,585
BBB.....	-	750,664
BBB-.....	-	196,782
BB+.....	-	394,250
BB.....	-	23,125
Total.....	<u>\$ 13,769,984</u>	<u>\$ 10,342,040</u>

Additionally, the Town holds \$4,295,858 in money market mutual funds and \$41,477 in MMDT which are unrated.

Concentration of Credit Risk

The Town places no limit on the amount the government may invest in any one issuer. More than 5% of the Town's investments are in Federal National Mortgage Association which had 12% of the total investments.

Fair Value of Investments

The Town holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the Town's mission, the Town determines that the disclosures related to these investments only need to be disaggregated by major type. The Town has chosen a tabular format for disclosing the levels within the fair value hierarchy.

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2020:

Investment Type	June 30, 2020	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments measured at fair value:				
<u>Debt securities:</u>				
U.S. treasury notes.....	\$ 13,701,739	\$ 13,701,739	\$ -	\$ -
Government sponsored enterprises.....	13,769,984	13,769,984	-	-
Corporate bonds.....	10,342,040	-	10,342,040	-
Total debt securities.....	37,813,763	27,471,723	10,342,040	-
<u>Other investments:</u>				
Equity securities.....	20,947,958	20,947,958	-	-
Equity mutual funds.....	1,793,940	1,793,940	-	-
Repurchase agreement.....	836,620	836,620	-	-
Fixed income.....	8,982,216	8,982,216	-	-
International securities.....	2,466,403	2,466,403	-	-
Money market mutual funds.....	4,295,858	4,295,858	-	-
Mutual funds.....	901,697	901,697	-	-
Total other investments.....	40,224,692	40,224,692	-	-
Total investments measured at fair value.....	78,038,455	\$ 67,696,415	\$ 10,342,040	\$ -
Investments measured at amortized cost:				
MMDT - Cash portfolio.....	41,477			
Total investments.....	\$ 78,079,932			

Investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Corporate bonds classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted

prices. Investments classified in Level 3 are valued using significant unobservable inputs. The Town does not have any investments in this category.

MMDT cash portfolio investments are valued at amortized cost. Under the amortized cost method, an investment is valued initially at its cost and adjusted for the amount of interest income accrued each day over the term of the investment to account for any difference between the initial cost and the amount payable at its maturity. If amortized cost is determined not to approximate fair value, the value of the portfolio securities will be determined under procedures established by the Advisor.

NOTE 3 – RECEIVABLES

At June 30, 2020, receivables for the individual major governmental funds and nonmajor governmental funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Real estate and personal property taxes.....	\$ 7,272,820	\$ (23,941)	\$ 7,248,879
Tax liens.....	4,330,116	-	4,330,116
Community preservation fund surtax.....	193,194	-	193,194
Motor vehicle and other excise taxes.....	2,515,626	(251,563)	2,264,063
Departmental and other.....	70,000	-	70,000
Intergovernmental - other.....	10,175,842	-	10,175,842
Community preservation state share.....	905,447	-	905,447
Special assessments.....	2,333,350	-	2,333,350
Total.....	<u>\$ 27,796,395</u>	<u>\$ (275,504)</u>	<u>\$ 27,520,891</u>

At June 30, 2020, receivables for fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Departmental and other.....	\$ 639,398	\$ -	\$ 639,398
Intergovernmental.....	200,000	-	200,000
Total.....	<u>\$ 839,398</u>	<u>\$ -</u>	<u>\$ 839,398</u>

At June 30, 2020, receivables for the component units, including the applicable allowances for uncollectible accounts, are as follows:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Departmental and other.....	\$ 161,000	\$ -	\$ 161,000

At June 30, 2020, receivables for the enterprise funds consist of the following:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Airport user fees.....	\$ 244,565	\$ (48,913)	\$ 195,652
Airport intergovernmental.....	17,702	-	17,702
Golf course user fees.....	17,924	-	17,924
Solid waste departmental and other.....	767,497	-	767,497
Wastewater liens - user fees.....	83,425	-	83,425
Wastewater user fees.....	1,566,922	-	1,566,922
Wastewater intergovernmental.....	195,139	-	195,139
Wastewater special assessments.....	588,750	-	588,750
Water supply user fees.....	1,321,720	(28,732)	1,292,988
Water supply intergovernmental.....	3,654,453	-	3,654,453
Water supply intergovernmental - legal settlements.....	2,578,431	-	2,578,431
Total.....	<u>\$ 11,036,528</u>	<u>\$ (77,645)</u>	<u>\$ 10,958,883</u>

Governmental funds report *unavailable revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the current year, the various components of *unavailable revenue* reported in the governmental funds were as follows:

	General Fund	Other Governmental Funds	Total
<u>Receivables and other asset types:</u>			
Real estate and personal property taxes.....	\$ 4,965,624	\$ -	\$ 4,965,624
Tax liens.....	4,192,055	138,061	4,330,116
Community preservation fund surtax.....	-	193,194	193,194
Motor vehicle and other excise taxes.....	2,264,063	-	2,264,063
Departmental and other.....	70,000	-	70,000
Intergovernmental - highway improvements.....	-	4,295,961	4,295,961
Intergovernmental - other.....	391,914	-	391,914
Community preservation state share.....	-	905,447	905,447
Special assessments.....	-	2,333,350	2,333,350
Tax foreclosures.....	1,185,252	-	1,185,252
Total.....	<u>\$ 13,068,908</u>	<u>\$ 7,866,013</u>	<u>\$ 20,934,921</u>

NOTE 4 – CAPITAL ASSETS

Capital asset activity of the governmental activities for the year ended June 30, 2020, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Activities:				
<u>Capital assets not being depreciated:</u>				
Land.....	\$ 82,848,146	\$ -	\$ -	\$ 82,848,146
Construction in progress.....	3,113,045	2,430,791	(1,545,232)	3,998,604
Total capital assets not being depreciated....	85,961,191	2,430,791	(1,545,232)	86,846,750
<u>Capital assets being depreciated:</u>				
Land improvements.....	4,311,338	-	-	4,311,338
Buildings and improvements.....	192,182,870	2,450,793	-	194,633,663
Machinery and equipment.....	15,008,233	1,359,497	(129,912)	16,237,818
Vehicles.....	11,615,501	659,753	(183,313)	12,091,941
Infrastructure.....	145,849,692	20,560,647	(257,028)	166,153,311
Total capital assets being depreciated.....	368,967,634	25,030,690	(570,253)	393,428,071
<u>Less accumulated depreciation for:</u>				
Land improvements.....	(2,294,895)	(141,678)	-	(2,436,573)
Buildings and improvements.....	(117,067,524)	(4,703,894)	-	(121,771,418)

NOTE 5 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

At June 30, 2020, the Town had an interfund receivable/payable totaling \$1,950,237 between the general fund and the highway projects fund. The purpose of this balance is to cover short-term needs that will be funded by future grant proceeds.

Interfund transfers for the year ended June 30, 2020, are summarized as follows:

Transfers Out:	Transfers In:						Total
	General Fund	Nonmajor Governmental Funds	Golf Course Enterprise Fund	Wastewater Enterprise Fund	Marina Enterprise Fund	HYCC Enterprise Fund	
General Fund.....	\$ -	\$ 4,435,144	\$ 233,199	\$ -	\$ 55,631	\$ 2,230,189	\$ 6,954,163 (1)
Community Preservation Fund..	-	2,677,078	-	-	-	-	2,677,078 (2)
Nonmajor Governmental Funds	920,800	1,187,353	-	2,710,578	30,000	-	4,848,731 (3)
Golf Course Enterprise Fund.....	45,000	-	-	-	-	-	45,000 (4)
PEG Access Enterprise Fund....	-	185,000	-	-	-	-	185,000 (5)
Total.....	\$ 965,800	\$ 8,484,575	\$ 233,199	\$ 2,710,578	\$ 85,631	\$ 2,230,189	\$ 14,709,972

- (1) Represents budgeted transfers from the general fund and stabilization fund to fund various nonmajor capital projects, nonmajor school revolving funds, golf course and marina enterprise funds; and subsidies to the Hyannis Youth and Community Center enterprise fund.
- (2) Represents budgeted transfers from the community preservation fund to nonmajor capital projects fund and to the affordable housing trust nonmajor special revenue fund.
- (3) Represents budgeted transfers from nonmajor special revenue funds to support the general fund operating budget; transfers from the school revolving fund to provide funding for school capital related projects; from the Town permanent fund to fund DPW related projects; from the Bismore parking receipts special revenue fund to the marina enterprise fund; transfer from the construction and maintenance nonmajor fund to the wastewater enterprise fund for debt service and to various nonmajor capital project funds.
- (4) Represents a budgeted transfer from the Golf Course enterprise fund to the general fund for the repayment of an advance.
- (5) Represents a transfer from the PEG access enterprise fund to the nonmajor school gifts and grants fund.

NOTE 6 – SHORT-TERM FINANCING

Short-term debt may be authorized and issued to fund the following:

- Current operating costs prior to the collection of revenues through issuance of revenue or tax anticipation notes (RANS or TANS).
- Capital project costs and other approved expenditures incurred prior to obtaining permanent financing through issuance of bond anticipation notes (BANS) or grant anticipation notes (GANS).

Short-term loans are general obligations and carry maturity dates that are limited by statute. Interest expenditures and expenses for short-term borrowings are accounted for in the general fund and enterprise funds, respectively.

The Town had the following short-term debt activity during 2020:

Type	Purpose	Rate (%)	Due Date	Balance at June 30, 2019	Renewed/ Issued	Retired/ Redeemed	Balance at June 30, 2020
Governmental Funds:							
BAN	Municipal Purpose.....	3.10%	02/26/20	\$ 2,052,950	\$ -	\$ (2,052,950)	\$ -

Total Enterprise Fund.....				\$ 250,000	\$ 12,775,000	\$ (250,000)	\$ 12,775,000

NOTE 7 – LONG-TERM DEBT

Under the provisions of Chapter 44, Section 10, Municipal Law authorizes indebtedness up to a limit of 5% of the equalized valuation. Debt issued in accordance with this section of the law is designated as being "inside the debt limit". In addition, however, debt may be authorized in excess of that limit for specific purposes. Such debt, when issued, is designated as being "outside the debt limit".

Details related to the Town's outstanding governmental obligation indebtedness at June 30, 2020, and the debt service requirements are as follows:

General Obligation Bonds Payable Schedule – Governmental Funds

Project	Maturities Through	Original Loan Amount	Interest Rate (%)	Outstanding at June 30, 2020

The Town has entered into several loan agreements with the Massachusetts Clean Water Trust (MCWT) for which the Town has recorded the total amount of debt outstanding. However, as of June 30, 2020, the Town has not incurred \$3.7 million of the eligible construction costs related to the projects and as a result has not yet received the corresponding loan proceeds from MCWT. Accordingly, the Town has recorded \$3.7 million as an intergovernmental receivable in the accompanying basic financial statements, as of June 30, 2020.

The Town is scheduled to be subsidized by the MCWT on a periodic basis for principal in the amount of \$195,139 and interest costs for \$45,556. The principal subsidies are guaranteed and therefore a \$195,139 intergovernmental receivable has been reported in the business-type financial statements. Since the Town is legally obligated for the total amount of the debt, such amounts have been reported in the accompanying basic financial statements. The 2020 principal and interest subsidies totaled \$93,355 and \$31,426, respectively.

The Town is subject to various debt limits by statute and may issue additional general obligation debt under the normal debt limit. At June 30, 2020, the Town had the following authorized and unissued debt:

Purpose	Amount
Sewer projects.....	\$ 18,229,000
Water projects.....	4,555,003
Airport projects.....	7,158,050
School improvements.....	886,000
Cotuit Bay entrance channel dredging project.....	1,980,000
Private road repairs.....	2,089,286
Clear vegetation and obstruction project.....	300,000
Hyannis Golf Course cart path system replacement.....	414,000
Craigville bath house improvements	160,000
Bumps River bridge repairs.....	900,000
Town Hall security improvements.....	480,000
Osterville field construction and site improvements.....	797,000
Total.....	<u>\$ 37,948,339</u>

Changes in Long-term Liabilities

During the year ended June 30, 2020, the following changes occurred in long-term liabilities:

Long-term liabilities related to both governmental and business-type activities are normally paid from the General Fund and the Enterprise Funds, respectively.

NOTE 8 – GOVERNMENTAL FUND BALANCE CLASSIFICATIONS

The Town classifies fund balance according to the constraints imposed on the use of the resources.

There are two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The Town has reported principal portions of endowment funds as nonspendable.

In addition to the nonspendable fund balance, spendable fund balances are classified based on a hierarchy of spending constraints.

- **Restricted:** fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed:** fund balances that contain self-imposed constraints of the government from its highest level of decision making authority. The Town's highest level of decision making authority is Town Council.
- **Assigned:** fund balances that contain self-imposed constraints of the government to be used for a particular purpose. The Town's by-laws authorize the Finance Director to assign fund balance.
- **Unassigned:** fund balance of the general fund that is not constrained for any particular purpose.

The Town has classified its fund balances with the following hierarchy.

	General	Community Preservation Fund	Nonmajor Governmental Funds	Total Governmental Funds
Fund Balances:				
Nonspendable:

Massachusetts General Law Ch.40 §5B allows for the establishment of stabilization funds for one or more different purposes. The creation of a fund requires a two-thirds vote of the legislative body and must clearly define the purpose of the fund. Any change to the purpose of the fund along with any additions to or appropriations from the fund requires a two-thirds vote of the legislative body.

At June 30, 2020, the balance of the Town’s municipal purpose stabilization fund (capital trust fund) is \$17,594,677 and is reported as unassigned fund balance within the general fund. The municipal purpose stabilization fund balance can be used for general and/or capital purposes upon approval of the Council.

At June 30, 2020, the balance of the Town’s pension stabilization fund is \$1,760,302 and is reported as restricted fund balance within the general fund. The pension stabilization fund balance may only be appropriated to fund the unfunded pension liability that accrues to the Town through the county retirement system. The amount appropriated from the pension stabilization fund is subject to Council approval and the approval of the Public Employee Retirement Administration Commission (PERAC).

NOTE 9 – LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

State and federal laws and regulations require the Town to construct a final capping system on its Flint Street Sanitary landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site after closure. The Town stopped accepting waste in 1991 and performed a final capping of the landfill site in 1997. At June 30, 2020, the Town has accrued \$175,000 as the estimated cost of the landfill’s postclosure care in the Solid Waste enterprise fund. This liability is based on estimates of what it would cost to perform all future postclosure care as of June 30, 2020. Actual costs may be higher or lower due to inflation, deflation, changes in technology, or changes in regulations.

NOTE 10 – RISK FINANCING

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. The Town participates in a premium-based health care plan for its active and retired employees. The amount of claim settlements has not exceeded insurance coverage in any of the previous three years.

The Town provides health insurance through the Cape Cod Municipal Health Group (Group), a nonprofit shared risk health group comprised of 51 governmental units. The Town and its employees contribute to the Group based upon a 50% (Town) and 50% (employee) primary care premium formula. In the event the Group is terminated, the Town is obligated to pay its prorata share of a deficit, should one exist.

The Town is self-insured for unemployment claims which are funded on a pay-as-you-go basis from annual appropriations paid from the general fund. The Incurred But Not Reported is immaterial to the financial statements and therefore is not reported.

The Town is self-insured for its workers’ compensation activities and accounts for them as an internal service fund. The self-insured program is administered by a third-party administrator and funded on a pay-as-you-go basis from annual appropriations paid from the general fund. The Town estimates its future workers’ compensation liability for occurrences under the self-insured program based on history and injury type and accounts for this liability on the full accrual basis of accounting on the statement of net position. The estimated claims liability also includes amounts for incremental claim adjustment expenses regardless of whether allocated to specific claims. At June 30, 2020, the amount of the liability for self-insured workers’ compensation claims totaled \$1,040,600 for governmental activities.

Changes in the reported liability since July 1, 2018, are as follows:

	Balance at Beginning of Year	Current Year Claims and Changes in Estimate	Claims Payments	Balance at Year-End	Current Portion
2019.....	\$ 595,400	\$ 1,218,472	\$ (738,072)	\$ 1,075,800	\$ 554,300
2020.....	1,075,800	732,364	(767,564)	1,040,600	536,300

NOTE 11 – PENSION PLAN*Plan Descriptions*

The Town is a member of the Barnstable County Retirement Association (BCRA), a cost-sharing multiple-employer defined benefit pension plan covering eligible employees of the 50 member units. The BCRA is administered by five board members (Board) on behalf of all current employees and retirees except for current teachers and retired teachers. Chapter 32 of the MGL assigns authority to establish and amend benefit provisions of the plan. The audited financial report may be obtained by visiting <http://www.barnstablecounty.org/retirement-association/>.

The Town is a member of the Massachusetts Teachers' Retirement System (MTRS), a cost-sharing multi-employer defined benefit plan. MTRS is managed by the Commonwealth of Massachusetts (Commonwealth) on behalf of municipal teachers and municipal teacher retirees. The Commonwealth is a nonemployer contributor and is responsible for 100% of the contributions and future benefit requirements of the MTRS. The MTRS covers certified teachers in cities (except Boston), towns, regional school districts, charter schools, educational collaboratives and Quincy College. The MTRS is part of the Commonwealth's reporting entity and the audited financial report may be obtained by visiting <http://www.mass.gov/osc/publications-and-reports/financial-reports/>.

Special Funding Situation

The Commonwealth is a nonemployer contributor and is required by statute to make 100% of all actuarially determined employer contributions on behalf of the Town to the MTRS. Therefore, the Town is considered to be in a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the Commonwealth is a nonemployer contributor in MTRS. Since the Town does not contribute directly to MTRS, there is no net pension liability to recognize. The total of the Commonwealth provided contributions have been allocated based on each employer's covered payroll to the total covered payroll of employers in MTRS as of the measurement date of June 30, 2019. The Town's portion of the collective pension expense, contributed by the Commonwealth, of \$17,855,357 is reported in the general fund as intergovernmental revenue and pension expense in the current fiscal year. The portion of the Commonwealth's collective net pension liability associated with the Town is \$147,239,603 as of the measurement date.

Benefits Provided

Both Systems provide retirement, disability, survivor and death benefits to plan members and beneficiaries. Massachusetts Contributory Retirement System benefits are, with certain minor exceptions, uniform from system to system. The System provides for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For persons who became members on or after April 2, 2012, average salary is the average annual rate of regular compensation received during the five consecutive years that produce the highest average, or, if greater, during the last five years (whether or not consecutive) preceding retirement. Benefit payments are based upon a member's age, length of creditable service, level of compensation, and group classification. Members become vested after ten years of creditable service.

Employees who resign from service and who are not eligible to receive a retirement allowance or are under the age of 55 are entitled to request a refund of their accumulated total deductions. Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

Cost-of-living adjustments granted between 1981 and 1997 and any increase in other benefits imposed by the Commonwealth's law during those years are borne by the Commonwealth and are deposited into the pension fund. Cost-of-living adjustments granted after 1997 must be approved by the Board and are borne by the System.

Contributions

Chapter 32 of the MGL governs the contributions of plan members and member units. Active plan members are required to contribute to the System at rates ranging from 5% to 9% of gross regular compensation with an additional 2% contribution required for compensation exceeding \$30,000. The percentage rate is keyed to the date upon which an employee's membership commences. The member units are required to pay into the BCRA a legislatively mandated actuarially determined contribution that is apportioned among the employers based on active current payroll. The Town's proportionate share of the required contribution equaled its actual contribution for the year ended June 30, 2020, was \$10,364,347, 21.55% of covered payroll, actuarially determined as an amount that, when combined with plan member contributions, is expected to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability.

Pension Liabilities

At June 30, 2020, the Town reported a liability of \$117,667,623 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2020. Accordingly, update procedures were used to roll the total pension liability to the measurement date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At December 31, 2019, the Town's proportion was 15.662%, which is 0.854% higher than its proportion measured at December 31, 2018.

Pension Expense

For the year ended June 30, 2020, the Town recognized pension expense of \$15,721,952. At June 30, 2020, the Town reported net deferred outflows/(inflows) of resources related to pensions of \$10,078,947.

The balances of deferred outflows and inflows related to pensions at June 30, 2020, consist of the following:

Deferred Category	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Differences between expected and actual experience..... \$	-	\$ (991,835)	\$ (991,835)
Difference between projected and actual earnings, net.....	-	(7,031,990)	(7,031,990)
Changes in assumptions.....	13,679,664	-	13,679,664
Changes in proportion and proportionate share of contributions...	5,947,794	(1,524,686)	4,423,108
Total deferred outflows/(inflows) of resources..... \$	<u>19,627,458</u>	<u>\$ (9,548,511)</u>	<u>\$ 10,078,947</u>

The deferred outflows/(inflows) of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2021.....	\$ 2,289,341
2022.....	2,389,661
2023.....	4,211,039
2024.....	(1,004,950)
2025.....	<u>2,193,856</u>
Total.....	<u>\$ 10,078,947</u>

Actuarial Assumptions

The total pension liability in the January 1, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement that was updated to December 31, 2019:

Valuation date.....	January 1, 2020
Actuarial cost method.....	Entry Age Actuarial Cost Method.
Projected salary increases.....	3.25%
Cost of living adjustments.....	3.00% of the first \$18,000.
Investment rate of return/Discount rate...	7.15% (previously, 7.375%).
Mortality Rates:	
Pre-Retirement.....	RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017.
Healthy Retiree.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017.
Disabled Retiree.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year and projected generationally with Scale MP-2017.

Investment Policy

The pension plan’s policy in regard to the allocation of invested assets is established and may be amended by the Board and pursuant to Massachusetts General Laws and Public Employee Retirement Administration guidelines. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of January 1, 2020, are summarized in the table on the following page.

Asset Class	Long-Term Expected Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity.....	21.00%	6.15%
International developed markets equity.....	13.00%	6.78%
International emerging markets equity.....	5.00%	8.65%
Core fixed income.....	15.00%	1.11%
High-yield fixed income.....	8.00%	3.51%
Real estate.....	10.00%	4.33%
Commodities.....	4.00%	4.13%
Hedge fund, GTAA, Risk parity.....	11.00%	3.19%
Private equity.....	13.00%	9.99%
Total.....	<u>100.00%</u>	

Rate of Return

For the year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 16.09%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the actuarially determined contribution rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15%) or 1-percentage-point higher (8.15%) than the current rate:

	1% Decrease (6.15%)	Current Discount (7.15%)	1% Increase (8.15%)
The Town's proportionate share of the net pension liability.....	\$ 154,738,918	\$ 117,667,623	\$ 86,523,468

At June 30, 2020, the Town has \$1,760,302 in a pension reserve fund which is classified as part of the general fund in the governmental fund financial statements. The Town transferred \$240,000 from the pension reserve fund to the general fund in 2020. The pension reserve fund may only be used to provide funding for annual contributions to the Association upon approval of the Council and the approval of the Public Employee Retirement Administration Commission (PERAC).

*Changes in Assumptions and Plan Provisions*Change in Assumptions:

- The net investment return assumption was lowered from 7.375% to 7.15%.
- The administrative expense assumption was changed from \$1,500,000 to \$1,850,000.

Change in Plan Provisions – None.**NOTE 12 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS***Plan Description*

The Town of Barnstable administers a single-employer defined benefit healthcare plan (Plan). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through a single-employer defined Other Postemployment Benefit (OPEB) plan. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions of the plan. Benefit provisions are negotiated between the Town and the unions representing Town employees and are renegotiated each bargaining period. The Plan does not issue a publicly available financial report. Additionally, retired teachers and their spouses receive health insurance through the Group Insurance Commission of the Commonwealth of Massachusetts (GIC). Each participating municipality is assessed for the governmental share of health and life insurance premiums paid on-behalf of its teacher retirees by the state. The state pays 85 – 90% of the total premium; the retiree's co-payment is 10 – 15% of the total premium as well as full payment for catastrophic illness coverage.

Funding Policy

The contribution requirements of plan members and the Town are also negotiated between the Town and union representatives. The required contribution is based on a pay-as-you-go financing requirement. The Town contributes 50% of the cost of current-year premiums for eligible retired plan members and their spouses. Plan members receiving benefits contribute the remaining 50% of their premium costs. For 2020, the Town's age-weighted contribution to the plan totaled approximately \$5.7 million. For the year ended June 30, 2020, the Town's average contribution rate was 10.31% of covered-employee payroll.

The Commonwealth of Massachusetts passed special legislation that has allowed the Town to establish a postemployment benefit trust fund and enabled the Town to raise taxes necessary to begin pre-funding its OPEB liabilities.

During 2020, the Town pre-funded future OPEB liabilities totaling \$628,000 by contributing funds to the Other Postemployment Benefit Fund in excess of the pay-as-you-go required contribution. These funds are reported within the Fiduciary Funds financial statements. As of June 30, 2020, the balance of this fund totaled \$5.8 million.

Summary of Significant Accounting Policies

For the purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts (repurchase agreements) that have a maturity at the time of the purchase of one year or less, which are reported at cost.

Employees Covered by Benefit Terms

The following table represents the Plan's membership at June 30, 2018:

Active members.....	740
Inactive members currently receiving benefits.....	<u>952</u>
Total.....	<u><u>1,692</u></u>

Components of OPEB Liability

The following table represents the components of the Plan's OPEB liability as of June 30, 2020:

Total OPEB liability.....	\$ 216,191,942
Less: OPEB plan's fiduciary net position.....	<u>(5,778,446)</u>
Net OPEB liability.....	<u><u>\$ 210,413,496</u></u>
The OPEB plan's fiduciary net position as a percentage of the total OPEB liability.....	2.67%

Significant Actuarial Methods and Assumptions

The total OPEB liability in the June 30, 2018, actuarial valuation was determined by using the following actuarial assumptions, applied to all periods included in the measurement date that was updated to June 30, 2020, as follows:

Valuation date.....	June 30, 2018
Inflation.....	3.25%
Discount rate.....	2.21% as of June 30, 2020 and 3.50% as of June 30, 2019.
Investment rate of return.....	7.00%
Salary increases.....	Service-related increases for Group 1 (excluding Teachers) and Group 2 employees: 6.0% decreasing over 11 years to an ultimate level of 4.0%. Service-related increases for Group 4 employees: 7.0% decreasing over 8 years to an ultimate level of 4.5%. Service-related increases for Teachers: 7.5% decreasing over 20 years to an ultimate level of 4.0%.

Health care trend rates:

Cape Cod Municipal Health Group.....	Non-Medicare: 0% for 1 year, then 7.0% decreasing by 0.25% each year to an ultimate level of 4.5% per year. Medicare: 7.25% decreasing by 0.25% each year to an ultimate level of 4.5% per year.
Group Insurance Commission of the Commonwealth of Massachusetts.....	8.0% decreasing by 0.5% for 5 years, then by 0.25% for 2 years to an ultimate level of 5.0% per year.
Group Insurance Commission of the Commonwealth of Massachusetts EGWP...	5.00%
Dental.....	0% for 1 year then 3.0% thereafter.
Part B Contributions.....	4.50%
Contributions.....	Retiree contributions are expected to increase with respective trend shown above.

Mortality rates:

Preretirement mortality rates:

Healthy Non-Teachers.....	RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017.
Healthy Teachers.....	RP-2014 White Collar Employee Mortality Table projected generationally with Scale MP-2016.

Postretirement mortality rates:

Healthy Non-Teachers.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017.
Healthy Teachers.....	RP-2014 White Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2016.
Disabled Non-Teachers.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year projected generationally with Scale MP-2017.
Disabled Teachers.....	RP-2014 Healthy Annuitant Mortality Table set forward four years and projected generationally with Scale BB2D from 2014.

Rate of Return

For the year ended June 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 4.51%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Investment Policy

The Town’s policy in regard to the allocation of invested assets is established and may be amended by the Town Council by a majority vote of its members. The OPEB plan’s assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the OPEB plan. The long-term real rate of return on OPEB investments was determined using the Town’s investment policy.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best estimate ranges of expected future rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term

expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin. The arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expense, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

Asset Class	Long-Term Expected Asset Allocation	Long-Term Expected Real Rate of Return
Domestic Equity- large cap.....	31.00%	9.67%
Domestic Equity- small/mid cap.....	5.00%	11.43%
International developed markets equity..	5.00%	7.50%
International emerging markets equity...	2.00%	10.06%
Domestic fixed income.....	38.00%	3.18%
International fixed income.....	4.00%	6.02%
Alternatives.....	9.00%	6.59%
Real estate.....	5.00%	9.82%
Cash.....	1.00%	1.75%
Total.....	100.00%	

Discount Rate

The Town’s rate used to measure the total OPEB liability was 2.21% as of June 30, 2020, and 3.50% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that contributions will be made in accordance with the Plan’s funding policy. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be insufficient to make all projected future benefit payments of current plan members. Therefore, the Town’s discount rate is a blend of the long-term expected rate of return on OPEB trust fund assets and a yield or index rate using the 20-year , tax-exempt general obligation municipal bonds with an average rating of AA/As or higher (2.21% as of June 30, 2020, and 3.50% as of June 30, 2019).

Changes in the Net OPEB Liability

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the Town recognized an OPEB expense of \$6,613,455 and reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Deferred Category	Deferred Outflows of Resources	Deferred Inflows of Resources	Total
Differences between expected and actual experience.....	\$ -	\$ (2,286,960)	\$ (2,286,960)
Difference between projected and actual earnings, net.....	111,557	-	111,557
Changes in assumptions.....	34,977,019	(20,634,589)	14,342,430
Total deferred outflows/(inflows) of resources.....	\$ 35,088,576	\$ (22,921,549)	\$ 12,167,027

Contributions made subsequent to the measurement date will be recognized in OPEB expense in the subsequent fiscal year. Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:

2021.....	\$ (4,560,447)
2022.....	114,232
2023.....	9,210,579
2024.....	7,402,663
Total.....	\$ 12,167,027

Changes of Assumptions:

- The discount rate was updated from 3.50% as of June 30, 2019, to 2.21% as of June 30, 2020.
- This valuation includes the repeal of the excise tax on high cost health plan, which was effective December 20, 2019.

Changes in Plan Provisions – None.

NOTE 13 – COMMITMENTS

The Town has entered into, or is planning to enter into, contracts totaling \$21 million in relation to various capital projects including infrastructure improvements, school and town facility improvements, channel dredging, equipment purchases, water line replacements and water supply system improvements, and sewer line replacements.

In addition, the Town has submitted its updated Comprehensive Wastewater Management Program to the State Department of Environmental Management for their review and approval. The program includes a 30-year financing plan to fund the expansion of a sewer collection system along with treatment and disposal of treated effluent as well as alternative solutions. The estimated cost of the 30-year plan with inflation is just over \$1.4 billion. A new tax of 2.75% on traditional lodging and short-term rental properties on Cape Cod and the Islands has been approved by the state legislature to assist in funding the program. This resource will be overseen by the Cape & Islands Water Protection Governing Board. In addition, the Town has dedicated all of the existing meals tax, one-third of the local rooms tax on traditional lodging, and 100% of the local rooms tax on short-term rentals to this program. A funding gap of approximately \$600 million exist. Over the next few months, it is anticipated that the Town will make decisions as to how the funding gap will be provided for, which is expected to be provided from sewer assessments and property taxes. To date, over \$30 million has been committed to projects consisting of land acquisition, dredging, pump station and sewer line design and construction. A portion of these commitments are funded from the cash reserves in the Construction and Maintenance Fund and will be financed with bond issues.

In addition, the regional vocational school, Cape Cod Technical Regional High School, has constructed a new high school on its existing campus in Harwich, Massachusetts as approved in a district wide vote passed on October 24, 2017. The cost to construct the project was \$127 million with a contribution of \$46 million from the Massachusetts School Building Authority (MSBA). The regional school district has issued general obligations bonds of approximately \$81 million to date for 25 years to finance the construction cost after a reimbursement from the MSBA.

The cost of the annual debt service to repay the bonds will be allocated to the member communities based on their respective student enrollments each year. Barnstable represents about 27% of the student enrollment in the regional school as of October 1, 2020. The budget impact to the Town is \$1,971,714 in FY 2021 and will drop to \$1,688,805 in FY 2022 based on the October 1, 2020 enrollment. The Town held an election on September 19, 2017 to exempt this annual debt service assessment from the tax levy limitations of Proposition 2½ which successfully passed. Based on the Town's current assessed valuation of all property this equates to approximately \$0.12 on the tax rate in FY 2021.

The general fund has various commitments for goods and services related to encumbrances totaling \$3,525,355.

NOTE 14 – CONTINGENCIES

The Town participates in a number of federal award programs. Although the grant programs have been audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* through June 30, 2020, these programs are still subject to financial and compliance audits. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although it is expected such amounts, if any, to be immaterial.

Various lawsuits, claims, and proceedings have been or may be instituted or asserted against the Town of Barnstable. These include those pertaining to alleged violations of the federal Clean Water Act and for alleged violations of Massachusetts Title V septic regulations. While the amounts claimed may be substantial, the ultimate liability cannot be determined because of the considerable uncertainties that exist. Therefore, it is possible that there could be material negative outcomes for the Town affected by contingencies.

NOTE 15 – LEGAL SETTLEMENT

In fiscal year 2017, the Town reached a legal settlement with Barnstable County for the reimbursement of costs associated with the cleanup of contamination of the Hyannis water supply from chemicals used in firefighting at the Barnstable County Fire and Rescue Training Academy. Under the terms of the agreement, the County will pay the Town approximately \$3.1 million over a 20 year period. Accordingly, the Town has recorded a \$2,578,431 receivable in the water supply enterprise fund as of June 30, 2020.

NOTE 16 – RESTATEMENT OF NET POSITION PREVIOUSLY REPORTED

Beginning net position of the governmental and business type of activities has been restated to reflect the change in beginning balance for GASB Statement #75 due to a change in the measurement date. To reflect this change, the Town has restated the beginning balance as follows:

	06/30/2019 Previously Reported Balances	GASB #75 Change of Measurement Date	06/30/2019 Restated Balances
Government-Wide Financial Statements			
Governmental activities.....	\$ 113,476,619	\$ (13,366,604)	\$ 100,110,015

Total.....	<u>\$ 125,542,987</u>	<u>\$ (1,757,408)</u>	<u>\$ 123,785,579</u>

NOTE 17 – COVID-19

On March 10, 2020, the Massachusetts Governor declared a state of emergency in response to the coronavirus outbreak. The World Health Organization officially declared the novel Coronavirus (COVID-19) a pandemic the following day. In an attempt to slow the spread of COVID-19, governments issued various stay at home orders that caused global economic shutdowns and substantial financial market impact. Starting in March 2020, the Governor continued to issue orders allowing governments to operate and carry out essential functions safely. These included modifying the state's Open Meeting Law, issuing a stay-at-home order, and introducing a phased approach to reopening State businesses. The Town is considered an essential business and although it was closed to the public for a period of time, departments remained operational and most employees continued to perform their daily duties.

A number of businesses have been forced to stop or significantly reduce operations decreasing the Town's portion of certain revenue. The Town has also incurred unanticipated costs specifically related to the pandemic. On March 27, 2020 the United States Federal Government established the Coronavirus Aid, Relief and Economic Security (CARES) Act in response to the economic downfall caused by the COVID-19 pandemic. This Act requires that the payment from these funds be used only to cover expenses that; are necessary expenditures incurred due to the public health emergency with respect COVID-19; were not accounted for in the budget most recently approved as of March 27, 2020; and were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. On December 26, 2020, the December 30th deadline was extended by one year. The Commonwealth and communities throughout the Commonwealth were awarded a portion of this federal funding. In addition to funding from the CARES Act, there are several other federal and state grants available.

The full extent of the financial impact cannot be determined as of the date of the financial statements.

NOTE 18 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 30, 2020, which is the date the financial statements were available to be issued.

NOTE 19 – IMPLEMENTATION OF NEW GASB PRONOUNCEMENTS

During 2020, the following GASB pronouncement was implemented:

- GASB Statement #95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. This pronouncement postponed the effective dates of certain provisions in GASB Statements and Implementation Guides that first became effective or are scheduled to be effective for periods beginning after June 15, 2018 or later.

The following GASB pronouncements will be implemented in the future:

- The GASB issued Statement #84, *Fiduciary Activities*, which is required to be implemented in 2021.
- The GASB issued Statement #87, *Leases*, which is required to be implemented in 2022.
- The GASB issued Statement #89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, which is required to be implemented in 2022.

- The GASB issued Statement #90, *Majority Equity Interests – an amendment of GASB Statements #14 and #61*, which is required to be implemented in 2021.
- The GASB issued Statement #91, *Conduit Debt Obligations*, which is required to be implemented in 2023.
- The GASB issued Statement #92, *Omnibus 2020*, which is required to be implemented in 2022.
- The GASB issued Statement #93, *Replacement of Interbank Offered Rates*, which is required to be implemented in 2022.
- The GASB issued Statement #94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which is required to be implemented in 2023.
- The GASB issued Statement #96, *Subscription-Based Information Technology Arrangements*, which is required to be implemented in 2023.
- The GASB issued Statement #97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, in which certain paragraphs are required to be implemented in 2021 and 2022.

Management is currently assessing the impact the implementation of these pronouncements will have on the basic financial statements.

Required Supplementary Information

General Fund Budgetary Comparison Schedule

The General Fund is the operating fund of the Town. It is used to account for all the financial resources, except those required to be accounted for in another fund.

Pension Plan Schedules

The Schedule of the Town's Proportionate Share of the Net Pension Liability presents multi-year trend information on the Town's net pension liability and related ratios.

The Schedule of the Town's Contributions presents multi-year trend information on the Town's required and actual contributions to the pension plan and related ratios.

The Schedule of the Special Funding Amounts of the Net Pension Liability for the Massachusetts Teachers' Contributory Retirement System presents multi-year trend information on the liability and expense assumed by the Commonwealth of Massachusetts on behalf of the Town along with related ratios.

These schedules are intended to present information for ten years. Until a ten-year trend is compiled, information is presented for those years for which information is available.

**SCHEDULE OF THE TOWN'S PROPORTIONATE SHARE
OF THE NET PENSION LIABILITY
BARNSTABLE COUNTY RETIREMENT ASSOCIATION**

Year	Proportion of the net pension liability (asset)	Proportionate share of the net pension liability (asset)	Covered payroll	Net pension liability as a percentage of covered payroll	Plan fiduciary net position as a percentage of the total pension liability

Until a 10-year trend is compiled, information is presented for those years for which information is available.

See notes to required supplementary information.

**SCHEDULE OF THE SPECIAL FUNDING AMOUNTS
OF THE NET PENSION LIABILITY
MASSACHUSETTS TEACHERS' RETIREMENT SYSTEM**

The Commonwealth of Massachusetts is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of the member employers which creates a special funding situation. Therefore, there is no net pension liability to recognize. This schedule discloses the Commonwealth's 100% share of the associated collective net pension liability; the portion of the collective pension expense as both a revenue and pension expense recognized; and the Plan's fiduciary net position as a percentage of the total liability.

Year	Commonwealth's 100% Share of the Associated Net Pension Liability	Expense and Revenue Recognized for the Commonwealth's Support	Plan Fiduciary Net Position as a Percentage of the Total Liability
2020.....	\$ 147,239,603	\$ 17,855,357	53.95%
2019.....	140,712,524	14,259,177	54.84%

Note: this schedule is intended to present information for 10 years. Until a 10-year trend is compiled, information is presented for those years for which information is available.

See notes to required supplementary information.

Other Postemployment Benefit Plan Schedules

The Schedule of Changes in the Town's Net Other Postemployment Benefit Liability and Related Ratios presents multi-year trend information on changes in the Plan's total OPEB liability, changes in the Plan's net position, and ending net OPEB liability. It also demonstrates the Plan's net position as a percentage of the total liability and the Plan's net other postemployment benefit liability as a percentage of covered employee payroll.

The Schedule of the Town's Contributions presents multi-year trend information on the Town's actual contributions to the other postemployment benefit plan and related ratios.

The Schedule of Investment Returns presents multi-year trend information on the money-weighted investment return on the Plan's other postemployment assets, net of investment expense.

These schedules are intended to present information for ten years. Until a ten-year trend is compiled, information is presented for those years for which information is available.

Note: this schedule is intended to present information for 10 years. Until a 10-year trend is compiled, information is presented for those years for which information is available.

See notes to required supplementary information.

NOTE A– STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**A. Budgetary Information**

In accordance with the Town Charter, the Town Manager presents an annual budget to the Council, which includes estimates of revenues and other financing sources and recommendations of expenditures and other financing uses. Expenditures are budgeted by categories that are broken down by personnel, operating expenses, debt service and capital outlay and are mandated by Municipal Law. The Council may authorize appropriations for the recommended purposes and may reduce or reject any appropriation by majority vote. The Council may not increase an appropriation without the recommendation of the Town Manager.

Supplemental appropriations are made upon recommendation of the Town Manager and require a majority approval of the Council.

The majority of appropriations are non-continuing which lapse at the end of each year. Others are continuing appropriations for which the governing body has authorized that an unspent balance from a prior year be carried forward and made available for spending in the current year. These carry forwards are included as part of the subsequent year's original budget.

Generally, expenditures may not exceed the legal level of spending (personnel, operating expenditures and capital) authorized for an appropriation account. However, the payment of debt service is statutorily required, regardless of whether such amounts are appropriated. Additionally, expenditures for disasters, natural or otherwise, and final claims and judgments may exceed the level of spending authorized by majority vote of the Council.

An annual budget is adopted for the general fund in conformity with the guidelines described above. The original 2020 approved budget authorized approximately \$174.3 million in current year appropriations and other amounts to be raised and approximately \$2.7 million in encumbrances and appropriations carried over from previous years.

The Finance Director has the responsibility to ensure that budgetary control is maintained. Budgetary control is exercised through the Town's accounting system.

B. Budgetary – GAAP Reconciliation

For budgetary financial reporting purposes, the Uniform Municipal Accounting System basis of accounting (established by the Commonwealth) is followed, which differs from the GAAP basis of accounting. A reconciliation of budgetary-basis to GAAP-basis results for the general fund for the year ended June 30, 2020, is presented in the following table:

Net change in fund balance - budgetary basis.....	\$	6,697,233
<u>Perspective differences:</u>		
Activity of the stabilization fund recorded in the general fund for GAAP.....		(175,095)
<u>Basis of accounting differences:</u>		
Net change in recording tax refunds payable.....		(33,586)
Recognition of revenue for on-behalf payments.....		17,855,357
Recognition of expenditures for on-behalf payments.....		<u>(17,855,357)</u>
Net change in fund balance - GAAP basis.....	\$	<u>6,488,552</u>

C. Appropriation Deficits

Expenditures exceeded appropriations in police operating expenses and community services operating expenses. The Town received authorization from the Commonwealth to overspend these line items due to costs associated with the COVID-19 pandemic.

NOTE B – PENSION PLAN

A. Schedule of the Town's Proportionate Share of the Net Pension Liability

The Schedule of the Town's Proportionate Share of the Net Pension Liability details the allocated percentage of the net pension liability (asset), the proportionate share of the net pension liability, and the covered employee payroll. It also demonstrates the net position as a percentage of the pension liability and the net pension liability as a percentage of covered payroll.

B. Schedule of the Town's Contributions

Governmental employers are required to pay an annual appropriation as established by PERAC. The appropriation includes the amounts to pay the pension portion of each member's retirement allowance, an amount to amortize the actuarially determined unfunded liability to zero in accordance with the system's funding schedule, and additional appropriations in accordance with adopted early retirement incentive programs. The appropriations are payable on July 1 and January 1. The Town may choose to pay the entire appropriation in July at a discounted rate. Accordingly, actual contributions may be less than the "total appropriation". The pension fund appropriation is allocated to the Town based on covered payroll.

C. Schedule of the Special Funding Amounts of the Net Pension Liabilities

The Commonwealth of Massachusetts is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of the member employers which creates a special funding situation. Since the Town does not contribute directly to MTRS, there is no net pension liability to recognize. This schedule discloses the Commonwealth's 100% share of the collective net pension liability that is associated with the Town; the portion of the collective pension expense as both a revenue and pension expense recognized by the Town; and the Plan's fiduciary net position as a percentage of the total liability.

D. Change in Assumptions:

- The net investment return assumption was lowered from 7.375% to 7.15%.
- The administrative expense assumption was changed from \$1,500,000 to \$1,850,000.

E. Changes in Plan Provisions – None.

NOTE C – OTHER POSTEMPLOYMENT BENEFITS

The Town administers a single-employer defined benefit healthcare plan ("The Retiree Health Plan"). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the Town's group health insurance plan, which covers both active and retired members. Additionally, retired teachers and their spouses receive health insurance through the Group Insurance Commission of the Commonwealth of Massachusetts (GIC). Each participating municipality is assessed for the governmental share of health and life insurance premiums paid on behalf of its teacher retirees by the state.

The Other Postemployment Benefit Plan

A. Schedule of Changes in the Town’s Net Other Postemployment Benefit Liability and Related Ratios

The Schedule of Changes in the Town’s Net Other Postemployment Benefit Liability and Related Ratios presents multi-year trend information on changes in the Plan’s total OPEB liability, changes in the Plan’s net position, and ending net OPEB liability. It also demonstrates the Plan’s net position as a percentage of the total liability and the Plan’s net other postemployment benefit liability as a percentage of covered employee payroll.

B. Schedule of the Town’s Contributions

The Schedule of the Town’s Contributions includes the Town’s annual required contribution to the Plan, along with the contribution made in relation to the actuarially determined contribution and the covered employee payroll. The Town is not required to fully fund this contribution. It also demonstrates the contributions as a percentage of covered payroll. Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported. Methods and assumptions used to determine contribution rates are as follows:

Valuation date.....	June 30, 2018
Inflation.....	3.25%
Discount rate.....	2.21% as of June 30, 2020 and 3.50% as of June 30, 2019.
Investment rate of return.....	7.00%
Salary increases.....	Service-related increases for Group 1 (excluding Teachers) and Group 2 employees: 6.0% decreasing over 11 years to an ultimate level of 4.0%. Service-related increases for Group 4 employees: 7.0% decreasing over 8 years to an ultimate level of 4.5%. Service-related increases for Teachers: 7.5% decreasing over 20 years to an ultimate level of 4.0%.
Health care trend rates:	
Cape Cod Municipal Health Group.....	Non-Medicare: 0% for 1 year, then 7.0% decreasing by 0.25% each year to an ultimate level of 4.5% per year. Medicare: 7.25% decreasing by 0.25% each year to an ultimate level of 4.5% per year.
Group Insurance Commission of the Commonwealth of Massachusetts.....	8.0% decreasing by 0.5% for 5 years, then by 0.25% for 2 years to an ultimate level of 5.0% per year.
Group Insurance Commission of the Commonwealth of Massachusetts EGWP...	5.00%
Dental.....	0% for 1 year then 3.0% thereafter.
Part B Contributions.....	4.50%

Contributions.....	Retiree contributions are expected to increase with respective trend shown above.
Mortality rates:	
Preretirement mortality rates:	
Healthy Non-Teachers.....	RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017.
Healthy Teachers.....	RP-2014 White Collar Employee Mortality Table projected generationally with Scale MP-2016.
Postretirement mortality rates:	
Healthy Non-Teachers.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017.
Healthy Teachers.....	RP-2014 White Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2016.
Disabled Non-Teachers.....	RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year projected generationally with Scale MP-2017.
Disabled Teachers.....	RP-2014 Healthy Annuitant Mortality Table set forward four years and projected generationally with Scale BB2D from 2014.

C. Change in Assumptions:

- The discount rate was updated from 3.50% as of June 30, 2019, to 2.21% as of June 30, 2020.
- This valuation included the repeal of the excise tax on high cost health plans, which was effective December 20, 2019.

D. Changes in Plan Provisions – None.

Combining Statements and Individual Fund Statement

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than permanent funds or capital project funds) that are restricted by law or administrative action to expenditures for specified purposes. The Town's special revenue funds are grouped into the following categories:

Town Revolving Funds – accounts for the non-school related activity of revolving funds established in accordance with MGL Chapter 44, Section 53E ½.

School Revolving Funds – accounts for the school department's revolving funds established in accordance with MGL Chapter 44, Section 53E ½ and Chapter 71.

Town Gift, Grant, and Other Funds – accounts for other non-school related funds designated for specific programs, this fund consists primarily of state and federal grants and gifts and other special revenue funds.

School Gift and Grant Funds – accounts for the school department's grant and gift funds received from state and federal governments which are designated for specific programs.

Construction and Maintenance Fund – accounts for financial resources that are specifically for sewer construction and private way maintenance and improvements. The Town adopted special legislation to create the fund which reports 100% of the meals tax and 33% of the hotel/motel tax collected directly into the fund.

Highway Projects Fund – accounts for and report costs incurred with the construction and reconstruction of Town owned roadways.

Affordable Housing Fund – accounts for the activity related to the creation and preservation of affordable housing.

Capital Project Fund

Capital Projects Fund – accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets of the governmental funds.

Permanent Funds

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support governmental programs.

Cemeteries and Libraries – accounts for cemetery contributions and bequests for which only earnings may be expended to benefit the Town's cemeteries and libraries. The Kirkman fund is used for both cemetery and library.

Conservation – accounts for gifts, bequests and contributions held for which only earnings may be expended for purposes specified by the donor in relation to the Town's conservation activities.

Education – accounts for gifts, bequests and contributions held for which only earnings may be expended for purposes specified by the donor in relation to the Town's public education system.

Other – accounts for various gifts, bequests and contributions held for which only earnings may be expended for purposes specified by the donor in relation to other Town activities.

Application assistance.....	<u>24,000</u>				
Total passenger facility charge.....	\$ <u>2,573,600</u>				

See notes to additional information.

NOTE A – BASIS OF ACCOUNTING

The schedule of passenger facility charges collected and expended and interest credited are prepared on the basis of cash receipts and disbursements, as prescribed by Sections 9110 and 9111 of the Aviation Safety and Capacity Expansion Act of 1990, issued by the Federal Aviation Administration of the U.S. Department of Transportation, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

Passenger facility charges collected include amounts collected by the airlines and transferred to the Town's airport. Expenditures for passenger facility charge approved projects are presented on a cash basis and include only the expenditures for approved passenger facility charge projects.

NOTE B – INTEREST CREDITED

Interest credited represents interest income allocated to the passenger facility charge program based on the ratio of the passenger facility charge program's unexpended passenger facility charges cash balance to the airport's total cash and investments balance included in the pooled cash funds of the Town.

NOTE C – APPLICATION

On January 20, 2011, the Federal Aviation Administration approved the airport's application allowing them to charge a \$2 passenger facility charge effective March 1, 2011. The airport was approved to charge \$2,573,600 in passenger facility charges of which \$2,549,600 is for a new terminal building and \$24,000 is assistance for the application fee.

Statistical Section

A winter view of Bismore Marina in Lewis Bay.

Statistical Section

Statistical tables differ from financial statements since they usually cover more than one year and may present nonaccounting data. The following tables reflect social and economic data, financial trends, and fiscal capacity.

Financial Trends

- These schedules contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time.

Revenue Capacity

- These schedules contain information to help the reader assess the Town's most significant local revenue source, the property tax.

Debt Capacity

- These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

Demographic and Economic Information

- These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.

Operating Information

- These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.

SOURCES: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(1) = Through special legislation in 2014, the Town accounted for meals tax revenue in the Sewer Expansion Trust Fund which was reported in the Wastewater enterprise fund. Beginning in 2015, through special legislation, the Town created the Construction and Maintenance fund which reports all meals tax revenue and one third of the hotel/motel tax revenue within the governmental funds.

(1) = Through special legislation in 2014, the Town accounted for meals tax revenue in the Sewer Expansion Trust Fund which was reported in the Wastewater enterprise fund. Beginning in 2015, through special legislation, the Town created the Construction and Maintenance fund which reports all meals tax revenue and one third of the hotel/motel tax revenue within the governmental funds.

(1) Weighted average direct tax rate, calculated as weighted average of residential, commercial and personal property tax rates. In 2020, tax rates included residential tax of \$9.37, commercial tax of \$8.51, and personal property tax of \$8.51.

(2) Overlapping rates for the five fire districts. Four fire districts adopted a single tax rate and one adopted the residential exemption. In 2020, rates ranged from \$1.59 per \$1,000 of valuation to \$4.65 per \$1,000 of valuation for an average rate of \$2.85 per \$1,000 of valuation.

Source: Assessor's Department, Town of Barnstable

All property in the Commonwealth of Massachusetts is assessed at 100% of fair cash value.

Note: Chapter 59, Section 21C of the Massachusetts General Laws, known as "Proposition 2 1/2", imposes 2 separate limits on the annual tax levy of the Town. The primary limitation is that the tax levy cannot exceed 2 1/2 percent of the full and fair cash value. The secondary limitation is that the tax levy cannot exceed the maximum levy limit for the preceding year as determined by the State Commissioner of Revenue by more than 2 1/2 percent, subject to an exception for property added to the tax rolls and for certain substantial valuation increases other than as part of a general revaluation. The secondary limit may be exceeded in any year by a majority vote of the voters, however it cannot exceed the primary limitation.

Direct and Overlapping Governmental Activities Debt

As of June 30, 2020

<u>Town of Barnstable, Massachusetts</u>	<u>Debt Outstanding</u>	<u>Percentage Applicable (1), (2)</u>	<u>Share of Overlapping Debt</u>
Debt repaid with property taxes and user charges:			
Barnstable County.....	\$ 23,061,312	16.79%	\$ 3,871,994
Cape Cod Regional Technical High School District.....	68,985,000	30.00%	20,695,500
Barnstable Fire District.....	2,140,000	100.00%	2,140,000
Centerville-Osterville-Marston Mills Fire District.....	1,542,531	100.00%	1,542,531
Cotuit Fire District.....	1,100,000	100.00%	1,100,000
Hyannis Fire District.....	17,255,000	100.00%	<u>17,255,000</u>
Subtotal, overlapping debt.....			46,605,025
Town direct debt.....			<u>56,326,423</u>
Total direct and overlapping debt.....			\$ <u><u>102,931,448</u></u>

Source: Official Statements

Note: The Town obtains the debt outstanding and percentages directly from the entities.

Note: Overlapping governments are those that coincide, at least in part, with geographic boundaries of the Town. This schedule calculates the portion of the outstanding debt of those overlapping governments that is borne by the taxpayers of Town. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) County expenses, including debt service, are assessed upon the towns within the county in proportion to their taxable valuation.

(2) The fire districts are special governmental units. The Town serves as a collecting agent for taxes and transfers funds directly to the fire districts on a weekly basis.
